INTRODUCTION

As mandated by IDB-9, the Office of Strategic Planning and Development Effectiveness (SPD) reports periodically on a set of indicators that allows Management to monitor the progress in achieving its corporate results. This forms part of a broader effort to enhance the Bank’s accountability and transparency while reducing information asymmetries throughout the organization in order to move further towards evidence-based decision making.

One such report is the Quarterly Business Review. Since last edition, the Business Reviews (QBR) has a new look based on the Bank’s new identity and simpler graphics, while allowing the user to download source data with a simple click. And for those iPad users with Roambi installed, the QBR lets you interact directly with how the data is visualized.

There is a new chapter dedicated exclusively to the External Feedback System.

As always, we’d like to hear from you. Please share with us your opinions about the QBR and ideas for continued improvement. You can email us at any time directly to QBR@IADB.ORG.

This document provides an analysis of the 2015 Third Quarter operational data and results for discussion and decision making purposes. This data was collected from a number of sources and is subject to adjustments and analysis as deemed appropriate by the corresponding business units providing the information. Due to rounding, percentages may not always appear to add up to 100%.

Special thanks to VPC, VPF, VPS, VPP, ORP and RMG for their contributions to this report.

LENDING CREDIT RISK

The Bank manages loan credit risk by maintaining limits on lending capacity, allocating adequate capital to cover unexpected scenarios in the loan portfolio, and by maintaining policies for managing non-performing loans. The Bank has also established sector concentration limits in the NSG portfolio to facilitate diversification.

Overall lending operations are constrained by the Bank’s Borrowing Policy, which limits Net Borrowings to the callable capital of non-borrowing countries.

1.23 Unused Borrowing Capacity

Net Borrowings: $51.7b
- 4% increase from $49.9b at the end of 2014

The Callable Capital of non-borrowing countries: $75.6b
- 8% increase from $70.1b at the end of 2014

Unused borrowing capacity: $24b
- 18% increase from $20.2b at the end of 2014

Percentage of the borrowing limit used: 68%
- 4% decrease from 71% at the end of 2014

CONCENTRATION RISK

High geographic concentration remains a source of credit risk in the IDB’s loan and guarantee portfolio (SG+NSG), given the regional nature of the Bank’s lending operations.

By the end of 2015 Q3, the five largest borrowing countries – Brazil (19%), Mexico (18%), Argentina (15%), Colombia (9%) and Ecuador (5%) – accounted for 67% of the Bank’s loan and guarantee exposures.

1.24 Concentration Risk (SG)

Size of the outstanding SG portfolio: $70.4b
- 3% increase from $68.7b at the end of 2014

The five largest SG exposures: 69.1%
- 0.7 decrease from 69.8% at the end of 2014

Undisbursed portion of approved SG loans: $26.7b
- 6% decrease from $28.5b at the end of 2014

SG loans undisbursed as a percentage of outstanding SG loans and guarantees: 27.5%
- 1.8% percentage point decrease from 29.3% as at the end of 2014
1.25 Concentration Risk (NSG)

Size of the outstanding NSG portfolio: $6.1b
- 1% increase from $6.0b at the end of 2014

The five largest NSG exposures: 55.0%
- 1.3% decrease from 55.9% at the end of 2014

Undisbursed portion of NSG loans reached $2.8b
- 2% decrease from $2.9 billion at the end of 2014

NSG loans and guarantees undisbursed as a percentage of outstanding: 31.8%
- 0.6% percentage point decrease from 32.4% at the end of 2014

VI. EXTERNAL FEEDBACK SYSTEM
A. PARTNER SATISFACTION

In the first semester of 2015, the IDB conducted the EFS SG Product Surveys involving a total of 739 individuals for SG Loan and TC Operations that hit the milestones of approval, first disbursement, half-disbursement or closing from October 2014 to June 30, 2015. Of these participants, 497 individuals completed the surveys for an overall response rate of 67% (229 individuals completed a loan operations survey and 268 a TC operations survey).

6.1 Partners’ satisfaction with IDB delivery of Services for Loans and TCs

SG Loan Operations: 93% of external partners reported being “satisfied” (43%) or “very satisfied” (50%) with IDB delivery of services.

TC Operations: 89% of external partners reported being “satisfied” (40%) or “very satisfied” (49%) with IDB delivery of services for TC operations.

• The CRF target for both products is 70%

6.2 Partner Satisfaction by Milestone (SG Loans)

Loan Operations: Satisfaction at approval is 94%, 93% at first disbursement and 91% at closing.

The analysis by milestone describes the experience of partners across the project cycle. Partner satisfaction at approval was the highest (94%)
6.3 Partner Satisfaction by Milestone (TCs)

**TC Operations**: Satisfaction at approval is 94%, 90% at first disbursement and 88% at closing.

In 2015, partner satisfaction at approval was the highest with (94%).

VI. ABBREVIATIONS AND FOOTNOTES

1. Disbursement projections are as of February 28th, 2015.
2. Program figures include OC, FSO, GRF and CTF.
3. Approvals planned in Pipeline as of February 28th, 2015.
4. "Multiple booked" operations refer to operations prepared to more than one Division.
5. The ESW Plan refers only to products financed by the administrative budget from VPS.
6. Disbursement projections are as of February 28th, 2015.
7. DSL replaces the Emergency Lending (EME) (AB-2890, 2012).
8. Disbursements from investment operations active at the beginning of 2015.
9. Disbursements from FSO and IDB Grant Facility operations active at the beginning of 2015.
10. Net Loan Flow is disbursement minus principal collections.
11. Includes operations financed by IDB Grant Facility.
12. Excludes operations pending ratification.
13. The average time from approval to March 31, 2015 pending eligibility is 10.4 months, the median is 8 months.
14. All PCRs required to be approved by June 30, 2015.
15. Panama replaced Costa Rica as the fifth largest in 2015 Q1.
16. Approvals projections are as of February 28th, 2015.
17. Approved Budget 2015 includes ORC, FSO, and GRF.
18. Evaluability or the extent to which an activity or program can be evaluated in a reliable credible fashion, is the basis for assessing compliance with evaluation standards set forth in the DEF. The evaluability categories changed for 2014.
19. CS including gender equality or other vulnerable groups, indigenous and afro-descendants, related indicator in Result Matrix. Crosscutting areas does not qualify. For loans the information is based on the validated DEM by SPD. The projects qualify as gender and diversity when they have one or more indicator for specific vulnerable groups (women, indigenous or afro-descendants).
20. The Evaluation Recommendation Tracking System (ReTS) was launched by the Bank in 2013 to facilitate the monitoring of recommendations stemming from the evaluation work of the Office of Evaluation and Oversight (OVE). The system requires that Management develop concrete action plans to implement the recommendations and track their progress, as a way to strengthen the Bank’s accountability as well as its ability to systematically apply lessons learned to its future activities. A protocol governing the process and the system through which the implementation by Management of OVE’s recommendations is tracked has been approved by the Board of Executive Directors in August of 2013 (GN-2607-2). As specified in the protocol, the ReTS tracks only the formal recommendations made by OVE that the Board of Executive Directors instructs Management to implement. With the ReTS, the IDB has taken an important step towards strengthening its evaluation function. Tracking and reporting on the implementation of evaluation recommendations is considered a good practice for Multilateral Development Banks (MDBs) and is strongly encouraged by the MDB Evaluation Cooperation Group (ECG) and the Organization for Economic Co-operation and Development (OECD).

22. FTE – Full Time Equivalent.
23. Time reported by all Vice-presidencies.
24. The ESW Plan refers only to products financed by the administrative budget from VPS.
25. The Revised Budget incorporates transfers (in and out) made to the original approved budget, actual plus commitments.
27. Unallocated Personnel Costs are the result of staff not reporting their time into the Time and Labor System. The equivalent cost from the missing staff time is reported as a Miscellaneous Cost. Ideally, this cost should be zero.
28. Moving average of four last quarters.
29. Moving average of four last quarters.
30. Measurement based on registered Start date.
31. Note that the methodology has been fine tuned to better reflect the trend.
32. Only operations which actually disbursed Moving average of four last quarters.
33. Filled with external and internal candidates. Includes postings with closing date in 2014 and hires in 2014 from postings with closing date in 2013.
34. Board approved Positions: 140 remain vacant.
35. Includes 7 Young Professionals.
36. The number of vacancies filled may be greater than posted positions. The main reasons are delays in effective hiring dates and changes in contract type.
37. Professional Staff, Grades 9 and above (Bankwide).
38. Management reviewed the way this target is measured and has concluded that the indicator does not fully reflect the Bank’s level of direct interface with, and support to, country counterparts. In addition, given high levels of client satisfaction and operational performance – which are the ultimate goals of decentralization – it does not appear cost-effective continuing to work towards the achievement of the 40% target. Management will ask the Board to reconsider the original metric as part of the update to the institutional strategy and the new CRF proposal (GN-2679-2) includes 7 Young Professionals.
40. % who answered 4 or 5 out of all respondents (on a 1-5 scale).
41. A weighted Index based on the ratings for the Content, Methodology, Materials and Instructor for each event.
42. The Kirkpatrick Model of Training Evaluation: Level 1 measures Reaction, Level 2 measures Learning, Level 3 measures Behavior and Level 4 measures Results.
