

Cluster to Promote Competitiveness through Public Private Partnerships

Multilateral Investment Fund

FOMIN

Tercer Encuentro Técnico de Capacitación
en materia de Estructuración de Proyectos
de Asociación Público-Privada

Mérida, Yucatán – México

20, 21, 22 de Febrero

The Problem being Addressed

- Insufficient capacity to effectively plan and carry out PPPs
- Inadequate legal, regulatory and institutional environment for PPPs
- Frequent renegotiations
- Unintended fiscal consequences

Goals

- ❑ Improve capacity in LAC to plan and implement infrastructure PPPs at the national, state and community levels
- ❑ Expand access to, and improve quality of, basic services through PPPs – particularly Pro-Poor PPPs (or P⁵)

Activities

- Training
- Strengthening PPP Institutions
- Policy and Regulatory Reform
- Public Outreach
- Knowledge Dissemination

Projects

Brazil

National Program for the Institutional Development of Public-Private Partnerships - US\$ 2,480,000

Outputs include development of national PPP irrigation project

Public-Private Partnership Program for the State of Minas Gerais - US\$ 675,000

Outputs include bringing to market the first road PPP in Brazil

Program to Support the Structuring and Development of Micro PPP Models at the Municipal Level - US\$ 1,135,678 -

Support, through micro PPPs, to small local providers of basic services.

Outputs include initial identification of two municipalities in waste removal PPPs

Projects

Colombia

Public-Private Partnership Program in IIRSA - US\$ 420,000

Building capacity of National Concessions Board to support public private partnerships.

Project delayed due to management changes in ministry

Program to Support the Ministry of Finance in the Identification and Selection of Public Private Partnership Projects - US\$ 497,487

Institutional strengthening of Ministry of Finance and National Planning Department to support PPP project development.

Output includes development of new policy orientation for government

Projects

Mexico

Program to Promote Public-Private Partnerships in Mexican States
(PIAPPEM) - US\$ 2,942,119

Strengthen legal and institutional capacity of Mexican state governments to apply harmonized PPP models (Federal District, Yucatan, Guanajuato, member states of South-Southeast Development Trust (FIDESUR), Tabasco).

Outputs include an analysis of each states legal framework and a development and implementation of a training program

Peru

Improved Access to Water and Sanitation Services in Small Municipios -
\$1,989,950

Enhance capacity of communities, operators and local authorities to implement sustainable models to expand water and sanitation services.

Outputs include initial outreach and consultation with local community groups

Community Based PPP Projects

Developing new generation of recycling and solid-waste removal projects at the municipal level in Argentina, Brazil, Bolivia, Colombia and Haiti

Infrascoppe: PPP Readiness Index and Software Tool for Water and Sanitation and Transportation PPPs

- ❑ Carried out and published by the Economist Intelligence Unit
- ❑ Dynamic, weighted Excel model that assesses a country's readiness and capacity for public private partnerships in water and transportation
- ❑ Evaluates 19 nations in Latin America and the Caribbean, according to their relative performance in five key areas, using 18 indicators
- ❑ Platform for policy dialogue with countries as well as tool to measure impact performance of MIF capacity building projects
- ❑ Learning tool for governments, donors and investors
- ❑ 2010: Anticipate 2nd edition of Infrascoppe in which 20 countries in LAC are evaluated
- ❑ Conversations underway with the World Bank and Asia Development Bank to expand the Infrascoppe outside the region

Partnership with Spain: Program to Promote PPPs in Latin America and the Caribbean

- Policy Options for PPPs
- Preparation of Projects
- Dissemination of Knowledge

Seminars

A Framework for Analyzing Different Alternatives for PPPs

Washington, D.C., July 2006: 2 day course on PPP fundamentals sponsored by MIF and Partnerships UK

Strengthening Partnerships for Improving Infrastructure Services in Latin America and the Caribbean

Washington, D.C., October 2008: First Workshop for the MIF Public-Private Partnerships Cluster. Meeting focused on hospital PPPs

Infrastructure Development for Sustainable Economic Growth: Lessons Learned from the Spanish Experience

Madrid, Spain, October 2009: Dissemination of practical knowledge and lessons learned from infrastructure PPPs with focus on Spanish and Latin America models in the transportation, solid waste, and health sectors
