3. FOREWORD

Over the last decades, the region has witnessed an increasing institutionalization of its participatory processes. This was especially evident during the 2000s, when civil society was recognizably at the center of most social movements. Democratic systems in Latin America and the Caribbean have evolved in this direction, with citizen participation occupying new spaces in decision-making processes.

Several national constitutions of the Region have identified participatory democracy as a guiding principle for the management of the State. Furthermore, some Latin American initiatives like the “Participatory Budget” have been adapted and replicated in various countries in the Americas and Europe.

However, the composition and structure of civil society organizations vary considerably from country to country, as does the degree of institutionalization and juridical recognition that enables their work.

Unlike other regions of the world, during this period the global proliferation of social media came hand in hand with a widespread phenomenon of decentralization in Latin America and the Caribbean. Together, these phenomena influenced and changed policies in different regions and also within the same territory. At the same time, a better organized and propounding civil society has strengthened the social fabric and allowed citizens to be firmer in their demand for accountability from their leaders.

Civil society has thus become a dynamic participant that builds relationships with locally elected representatives as well as with other actors from the state apparatus and representatives from the private sector. The gradual institutionalization of the role of civil society is indicative of the growing participation of citizens in years to come.

The IDB Group is the leading development agency in Latin America and the Caribbean. Its work focuses on improving the lives of citizens by continually advancing its strategies and by analyzing and identifying new trends. The Bank is one step ahead of the needs, demands and expectations of its internal and external customers concerning the reduction of poverty and inequality, the promotion of productivity and innovation, and the efforts to generate greater integration in Latin America and the Caribbean. As regards development issues, the IDB is the main partner of the three most important actors: The Government, the Private Sector and Civil Society.

As far as Civil Society is concerned, the IDB devotes personnel and resources in each one of the 26 countries where it operates and conducts programs and initiatives from its Head Office in Washington D.C. to foster its relationship with this actor of development through five levels of engagement: Information, dialogue, consultation, collaboration and partnerships.

This first review of the IDB Group’s engagement activities with Civil Society constitutes both a natural and indispensable step to better understand the work led by the Bank and, at the same time, provide the first database needed for our future endeavors.

Alexandre Meira da Rosa
Vice President for Countries
IDB Group

4. INTRODUCTION

REASON AND PURPOSE OF THIS REVIEW

The leadership of the Vice President for Countries Alexandre Meira da Rosa introduced a turning point in the topics related to Civil Society (CS)¹ that are under his scope of responsibility. This new administration organized and consolidated the entire work of the IDB Group with CS into five levels of engagement: Information, dialogue, consultation, collaboration and partnerships.

The objective was to clarify the scope, reach and impact of the work the different Bank sectors, departments, divisions and units conduct with CS, as well as optimize the use of the resources available, concentrating them on those actions that prove to be most sustainable.

Also, a common denominator was established among the three main actors of development (Government, Private Sector and Civil Society) in order to provide more precise technical advice to Governments and the Private Sector for a more effective relationship with CS.

These efforts led to the preparation of studies and publications on effective public consultation, guidelines for engagement with civil society, social monitoring and integration agendas. Opportunities for interaction between the three actors were also discussed and programs were created that sought to:

1. The IDB defines Civil Society as a wide array of organizations, associations; academic institutions; universities, not-for-profit professional responsibility groups and non-governmental and not-for profit social organizations; trade unions; foundations; faith-based institutions; formal and informal organizations which belong to or represent community interests. They can work locally, regionally or internationally and conduct operations in one or more sectors.

- include CS as part of a set of innovative solutions for effectively addressing development challenges identified by the Bank²; incorporate human capital with technically prepared Civil Society Organizations (CSOs) by means of institutional training programs³;
- add shared value in regional thematic roundtables in order to build knowledge during regular meetings, with a view to prepare common agendas on development challenges identified in the Region⁴.

At regional level, Civil Society Consultative Groups (ConSoC) continued to be strengthened in all 26 countries. These groups, which consist of a number of CSOs in each country, represent an invaluable network of collaboration and direct interaction with the Bank in the form of technical and territorial perspectives and experiences.

The annual meetings “IDB Group-Civil Society Caribbean Region” and “IDB Group-Civil Society Regional 26 Countries” were also reinforced, together with other sub-regional meetings that include the participation of CSO leaders, experts on different fields and sectors, and Bank specialists to continue exploring opportunities for joint solutions.

The previous considerations explain the need for a review that helps to better understand the IDB Group’s level of engagement with Civil Society and to coordinate our future actions.

The strategic approach to CS topics and this publication were conceived and led by Civil Society Specialist Flavia Milano (flaviam@iadb.org), with the collaboration of Viviane Espinoza, Civil Society Programs Coordinator.

2. Program “Civil Society for Innovative Solutions” Annual Challenge 2015: Civil Society and Legal Identity.

3. Program “Civil Society and Institutional Capacity” conducted in 23 countries during the period and training in “PM4R/Civil Society” and “Project Cycle Management”

4. Program “Civil Society Building Knowledge”, which includes periodic online thematic discussions to incorporate development-related topics in joint agendas. During the period, the topics addressed were “Adaptation to Climate Change” and “Child Obesity in the Caribbean” and “Project Management for Results”.

5. METHODOLOGY

A. CONCEPTUALIZATION OF THE LEVELS OF ENGAGEMENT: The division into five levels of engagement was conceived based on the examination of the IDB Group's work with Civil Society (SC), as well as the exchange of CS topics with other experts from the different Multilateral Development Banks (MDB)⁵, especially the World Bank.

B. INFORMATION PROCESSING: The information from the 26 countries was received and actions were organized into the corresponding levels, adding a reference to the work the IDB carries out with CS from its Head Office in Washington D.C.⁶

C. NATURE AND SCOPE OF THE REVIEW: This exercise seeks to highlight the Bank's enormous and outstanding efforts with the third actor -Civil Society- and to better coordinate present and future development opportunities. Far from being a detailed inventory of the projects, programs and activities involving CS participation in one or more levels of engagement (see the "Level of Engagement by Activity"), the review provides new guidelines for designing CS-related activities and engagement strategies in the future.

D. CONTEXTUAL ANALYSIS OF THE INFORMATION BY COUNTRY: This review is to be understood in context and not as a comparison between countries. The reason is that individual country activities are dependent upon the volume of the operations portfolio and the influence of external and internal factors that result, for example, from changes in work teams and their short-term impact on CS-related topics. Also, by definition each country has its own context and identity that determine the interaction between the three main actors, which, as we will see, varies significantly from country to country. Accordingly, each Country Office takes the steps needed to increase compliance efficiency in line with the Country Strategy agreed with the respective government, promoting opportunities for development by incorporating CSOs that can contribute specific local and technical knowledge, if deemed pertinent.

5. Exchanges and regular meetings with CS specialists from the World Bank, the Asian Development Bank, the African Development Bank and UN agencies.

6. Initiatives such as "Demand Solutions", calls for cultural proposals, etc.

E. BUSINESS OPPORTUNITIES AND OUTSTANDING TEAMS:

In certain cases, some IDB working teams in conjunction with CS, Governments and the Private Sector have exceeded the expectations and moved towards a comprehensive development approach where the three actors enjoy a more fluid inter-relationship that may help to promote better business opportunities, thus contributing to their countries' development.

F. IMPACT ON DEVELOPMENT AND RESOURCE OPTIMIZATION:

This document provides an opportunity to analyze the different levels of engagement in order to ascertain the impact on each actor's development activities and, therefore, manage available resources more effectively.

G. EXPECTED FULFILLMENT OF ENGAGEMENT:

In all cases, the Country Offices operating and sector specialists meet the requirements, good practices and levels of demand considered to be the baseline or starting point⁷. The information contained in the different charts and country chapters illustrate those activities that exceed the baseline level of engagement.

H. THE ROLE OF CS IN DEVELOPMENT:

The review evidenced the Bank's recognition of CS as a key actor of development. The Bank's departments, divisions and units interact with CS by providing face-to-face and online information;

promoting dialogue opportunities; leading public consultations on strategies, projects and programs; promoting reciprocal collaboration to create knowledge products and thematic roundtables, as well as partnerships through joint awareness campaigns, and implementing projects and/or project components.

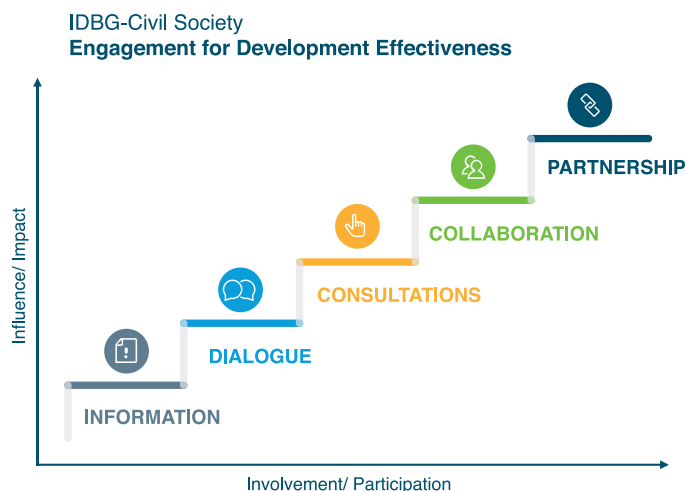

I. SUCCESS STORIES: Some stories of collaboration for development with CS were selected among the countless examples received as a way to illustrate how the different levels of engagement have been put to practice.

J. ANNEX: The Annex to this publication contains information on operations referred to the highest level of influence, i.e. partnerships, during the 2014-2015 period, which constitutes our focus of attention.

This review supports and highlights the work of IDB Group Civil Society in each one of the 26 borrowing member countries of the region: Argentina, Bahamas, Barbados, Belize, Bolivia, Brazil, Chile, Colombia, Costa Rica, Dominican Republic, Ecuador, El Salvador, Guatemala, Guyana, Haiti, Honduras, Jamaica, Mexico, Nicaragua, Panama, Paraguay, Peru, Suriname, Trinidad and Tobago, Uruguay and Venezuela.

7. "Baseline or starting point" is to be understood as all information, dialogue, consultation, collaboration, and partnership activities that may contribute to improving the execution of development operations, programs and strategies.

K. LEVELS OF ENGAGEMENT: As shown in the chart, all levels of engagement are necessary and, for the most part, occur simultaneously. A higher level of engagement and participation will have a greater impact on development, according to the following guidelines:

PARTNERSHIP – This refers to the involvement of CSOs in the creation of knowledge products and/ or the implementation of project components and/ or TCs jointly with Bank operation or sector specialists. It also includes social awareness campaigns carried out by CSOs and sector specialists.

COLLABORATION – This refers to the cooperation between CSOs and specialists/experts in seminars, publications on specific topics, technical exchanges in workshops, face-to-face or online training sessions, and thematic roundtables with CSOs acting either as providers or beneficiaries.

PUBLIC CONSULTATIONS⁸ – This refers to the participation of different sectors of CS who provide comments and suggestions about development policies, projects, strategies and programs.

Consultations adhere to national and international regulatory frameworks and are observant of the Bank's Operational Policies (OP). They follow specific methodologies and may be conducted by Executing Agencies (public or private) and/ or the Bank to obtain feedback on such Policies, Strategies, Sectoral Frameworks, Projects and/ or Programs⁹.

DIALOGUE – This refers to the participation and exchange of CSOs with Government/Private Sector representatives and/ or Bank specialists during ConSoC Meetings, Annual Meetings, Regional Forums and/ or Transboundary Meetings organized by or with participation of the IDB Group.

INFORMATION – This refers to actions conducted by the Bank in order to distribute and/ or disseminate documents and files regarding its projects, initiatives and policies, including the initiatives to strengthen information access issues (including the ATI policy) and open data.

8. During the period studied, the policy governing the Independent Consultation and Investigation Mechanism (ICIM) was modified and several Public Consultations with CS were conducted. Since this agency is independent from the Bank, detailed information was not included in this first review, regardless of the outstanding process and the methodologies employed.

9. See "Public Consultations with Civil Society: Guidelines for Public and Private Executing Agencies/ Legal framework of 26 countries, practical models for the consultation plan with guiding principles and universal good practices". Inter-American Development Bank, 2016.

6. SECTORS

The Bank works in a number of sectors that include Agriculture and Rural Development, Education, Energy, Environment and Natural Disasters, Financial Markets, Health, Industry, Private Firms and SME Development, Reform/Modernization of the State, Regional Integration, Science and Technology, Social Investment, Sustainable Tourism, Trade, Transport, Urban Development and Housing, Water and Sanitation, Competitiveness and Innovation, Labor Markets.

Civil Society participates at different levels of engagement with the activities, projects, strategies and programs for the sectors mentioned. As part of

its strategy to achieve development in the Region and within the five priorities of 1) reducing poverty and inequality; 2) promoting productivity and innovation; 3) generating integration and promoting development through the private sector; 4) address the issues of climate change, renewable energy and environmental sustainability; and 5) promoting regional cooperation and integration¹⁰; the Bank seeks to maximize development opportunities by incorporating Civil Society actors with experience in these sectors that can add value through their products, initiatives, activities and programs, especially in rural and/or remote areas where CSOs play a fundamental role.

10. As has been defined in the 9th General Capital Increase Report (GCI-9).

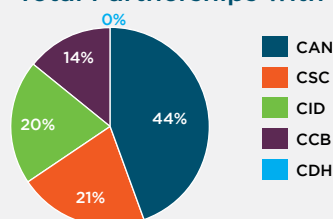

7. GENERAL LEVELS OF ENGAGEMENT OF THE IDB GROUP

PARTNERSHIPS

Of all the partnerships established in the 26 countries where the IDB operates, the majority took place in the CAN Region in the form of knowledge products and projects and/or Technical Cooperations. Civil Society is involved in the execution of 44% of them, followed by CSC with 21%, CID with 20% and CCB with 14%.

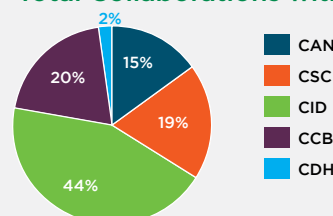

Total Partnerships with Civil Society

COLLABORATION

Of all the collaborations conducted in the 26 countries where the IDB operates, the highest number took place in the CID Region with 44%, followed by CCB with 20%, CSC with 19%, CAN with 15% and CDH with 2%.

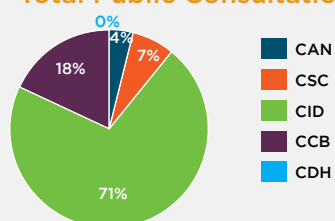

Total Collaborations with Civil Society

PUBLIC CONSULTATIONS

The CID Region conducted the largest number of consultations with Civil Society, with 71% of all consultations in the Region. CCB conducted 18% of all consultations, followed by CSC with 7% and CAN with 4%.

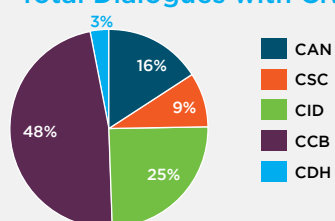

Total Public Consultations with Civil Society

DIALOGUE

The Region of Latin America and the Caribbean with the largest number of dialogues with Civil Society was CCB with 48%, followed by CID with 25%, CAN with 16%, CSC with 9% and CDH with 3%.

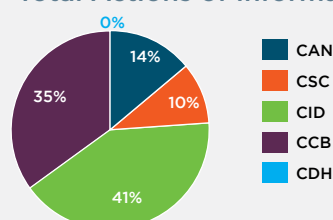

Total Dialogues with Civil Society

INFORMATION

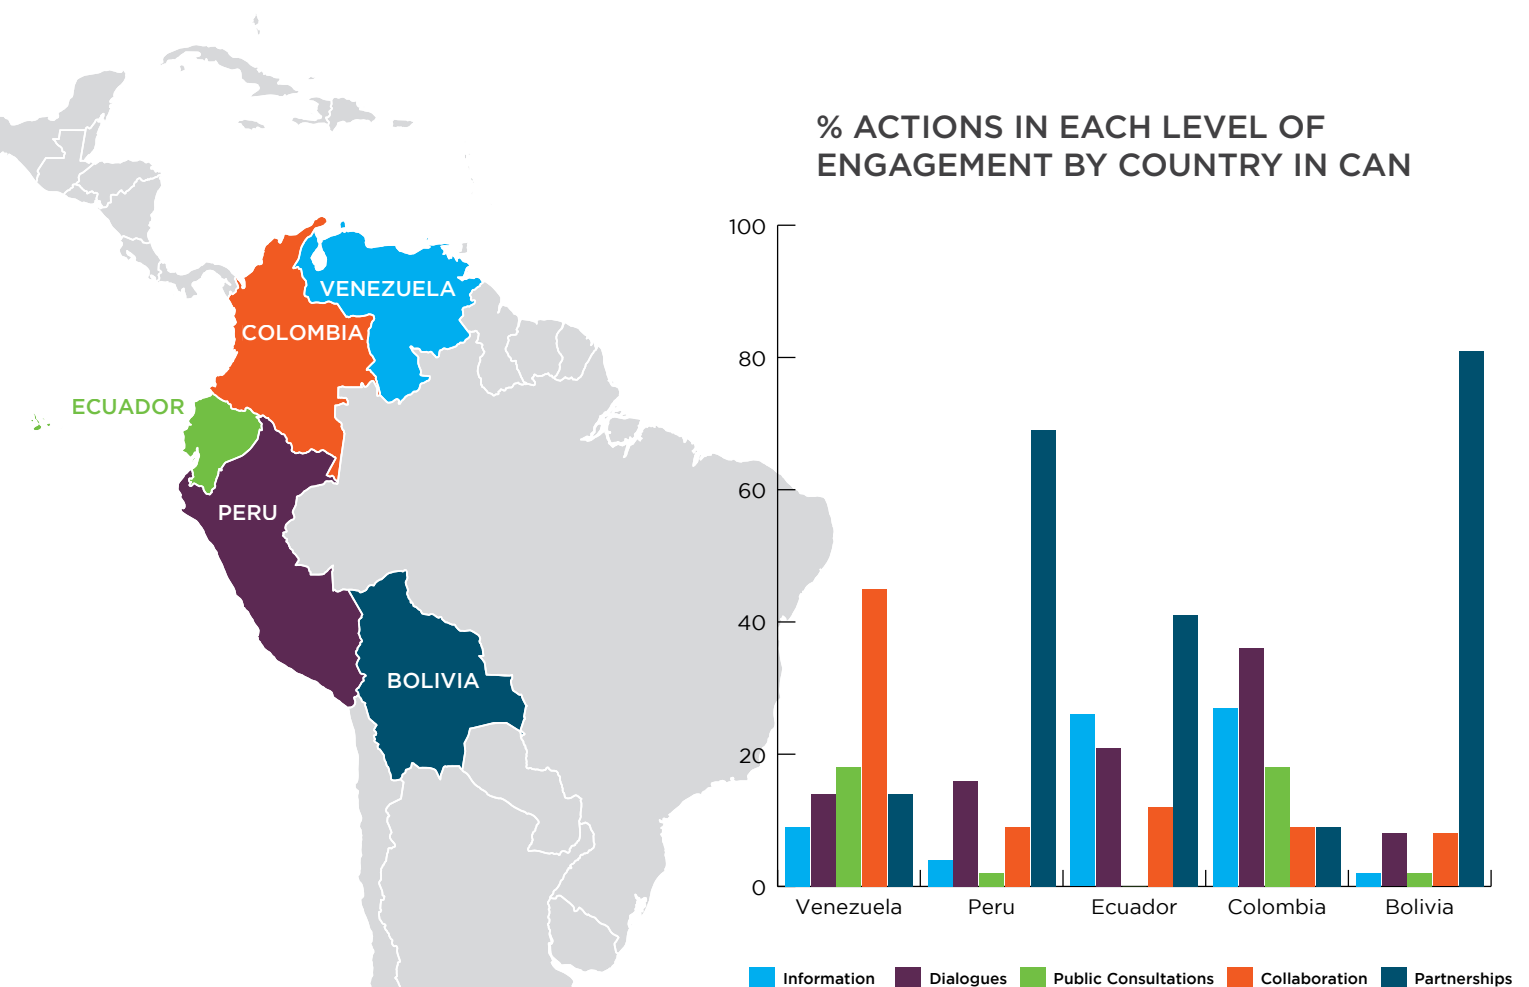

The Region of Latin America and the Caribbean with the largest number of information actions for Civil Society was CID with 41%, followed by CCB with 35%, CAN with 14% and CSC with 10%.

Total Actions of Information by Region

8. LEVELS OF ENGAGEMENT BY REGION

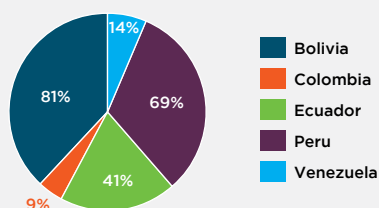

1. CAN Region

PARTNERSHIPS

In the CAN Region, Bolivia and Peru established 81% and 69% of all partnerships respectively, mainly in the form of projects and/or technical cooperations.

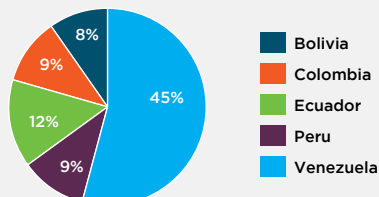

Total Partnerships with Civil Society in CAN

COLLABORATION

Venezuela carried out 45% of collaborations with Civil Society (seminars, face-to-face and online training courses and thematic roundtables), followed by Ecuador (12%). Several CSOs participated in the program Civil Society and Institutional Capacity and obtained scholarships and the project management qualification after the two-month training. Bolivian and Venezuelan Civil Society representatives completed the course "Project Management for Results PM4R / Civil Society" with excellence.

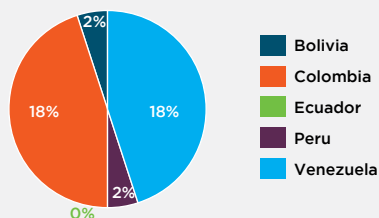

Total Collaborations with Civil Society in CAN

CONSULTATIONS

Venezuela and Colombia conducted 18% of all consultations with Civil Society, followed by Bolivia and Peru, with 2% each. Consultations referred to projects and Country Strategies being prepared during the period.

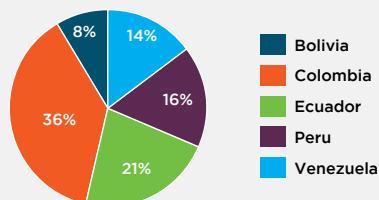

Total Consultations with Civil Society in CAN

DIALOGUE

During this period, Colombia and Ecuador organized the most dialogues with Civil Society, with 36% and 21% respectively. All countries have participated and presented projects and initiatives during the 2014 and 2015 annual forums of the IDB Group-Civil Society 26 Countries.

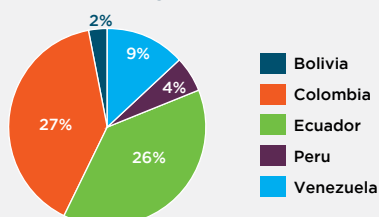

Total Dialogues with Civil Society in CAN

INFORMATION

Colombia and Ecuador are way ahead in conducting actions of information for Civil Society, with 27% and 26% respectively.

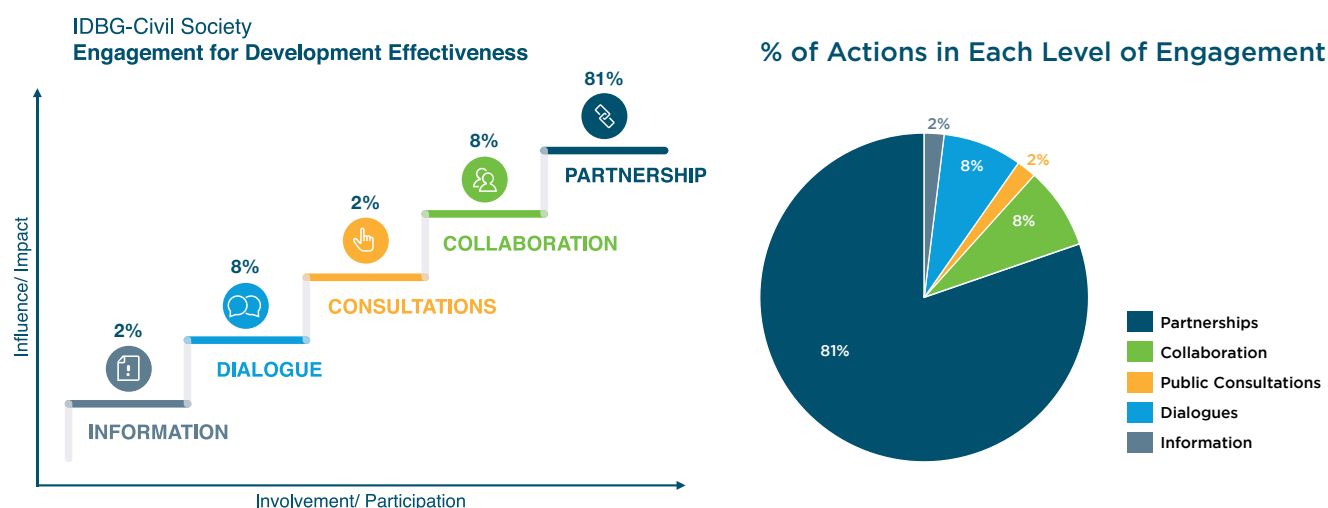

Total Actions of Information with Civil Society in CAN

8. LEVELS OF ENGAGEMENT BY REGION: CAN

1.1 Bolivia

Of all the actions undertaken by Bolivia with Civil Society during 2014-2015 in the different levels of engagement, 81% consisted of partnerships (knowledge products), 8% were collaborations, 2% were public consultations (projects and Country Strategy), 8% were dialogues and 2% were actions of information.

SUCCESS STORY

The *Escuela Superior Agropecuaria*, a vocational agricultural school under Fundación Colonia Pirai, is an educational center that also provides accommodation to orphan youth and children of low-income peasant families from across the country. In 2011, Fundación Colonia Pirai¹¹ won a competition organized by the IDB and obtained the resources

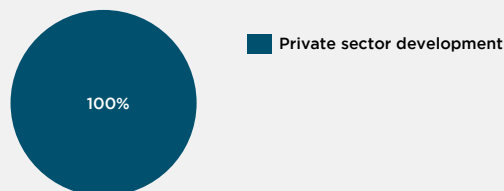

necessary to expand its educational capacity and to modernize the School in compliance with Bolivia's new education law. The objective is to train a new generation of young professionals specializing in new agro-ecological technologies to improve sustainable production processes in the country's rural areas.

11. Winner of the Call for Scholarships financed by the Japanese Government (JPO).

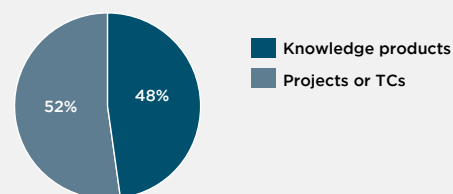

PARTNERSHIPS

Bolivia entered into partnerships with Civil Society in the Education sector, 48% in the form of knowledge projects and 52% as specific projects and/or Technical Cooperations and/or Direct Financing where the CSO participates in the execution.

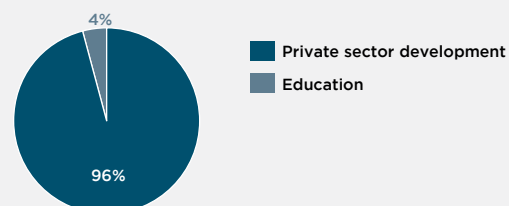

Knowledge Products

Total Partnerships

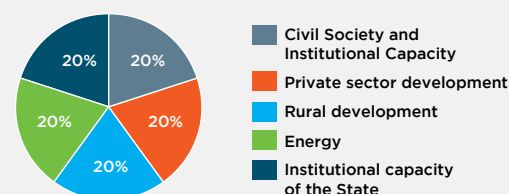

Projects or TCs by Sector

COLLABORATION

Bolivia collaborated with Civil Society through the ConSoC Bolivia in the areas of Institutional Capacity of the State, Energy, Rural Development and Private Sector/SME Development. The ConSoC organized face-to-face seminars and a thematic roundtable. Several CSOs participated in the program Civil Society and Institutional Capacity and obtained scholarships and the project management qualification after the two-month training. Bolivian Civil Society representatives completed the course "Project Management for Results PM4R / Civil Society" with excellence.

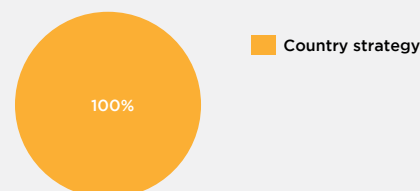

Collaborations by Sector

CONSULTATIONS

During this period, Bolivia conducted face-to-face public consultations with Civil Society related to the 2011-2015 Country Strategy.

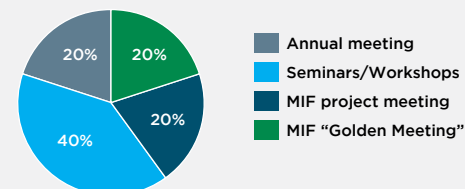

Public Consultations Involving Civil Society

DIALOGUE

During the period, Bolivia held a number of dialogues with the country's Civil Society. ConSoC Bolivia conducted specific dialogues with other Civil Society Organizations (60%), including an annual meeting with rural CSOs and various seminars/workshops that involved urban CSOs. For its part, the IDB organized an annual project meeting with MIF executing agencies and a "Golden Dialogue" with different federations, NGOs and associations. Several local CSOs participated and presented projects during the annual 2014 and 2015 forums of the IDB Group-Civil Society 26 Countries.

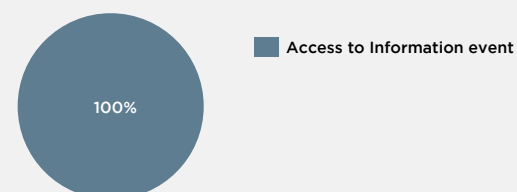

Dialogues Involving Civil Society

INFORMATION

At the Information level, Bolivia organized an event aimed at publicizing the "Macroeconomic Policy in Bolivia from an IDB Perspective" to reinforce the access to information on Bank activities (including the Information Access Policy), with the participation of urban CSOs. The MIF organized a number of videoconferences and webinars on specific development topics.

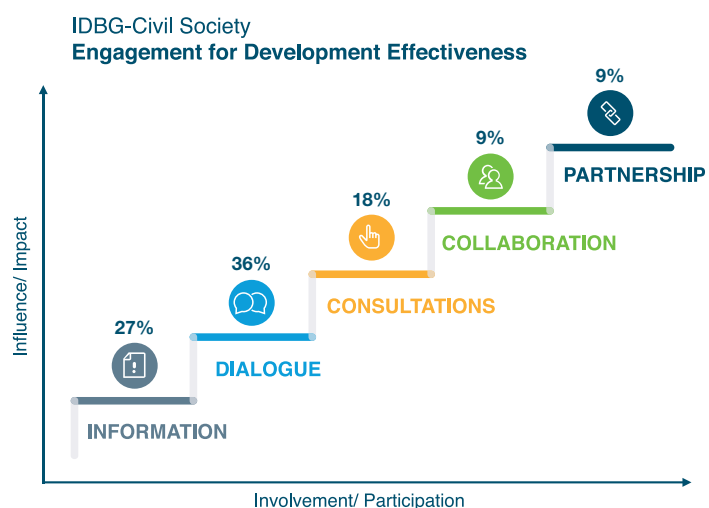

Actions of Participation in Discussions on Transparency and Access to Information

8. LEVELS OF ENGAGEMENT BY REGION: CAN

1.2 Colombia

Colombia undertook actions with Civil Society during 2014-2015 in the different levels of engagement. Most actions consisted of dialogues (36%), followed by actions of information for Civil Society (27%), public consultations (18%), collaborations (9%) and partnerships (9%).

SUCCESS STORY

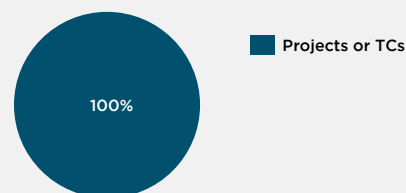

The IDB finances a program with unprecedented systemic and social transformation effects in the area of disability, with participation of multiple actors, including Civil Society. The program has been considered a model as well as a national and international benchmark regarding the employment of people with disabilities and other vulnerable population groups such as female heads of household, at-risk youth and people living in poverty. The program established partnerships and institutional public/private networks (social clusters) with a view to offering information, guidance, support, coaching

and effective training to individuals with disabilities (for developing gross and fine motor skills); it generated an active and effective network of public and private actors to support the employment of people with disabilities; it established a model for the employment of individuals with disabilities; it provided guidance for the creation of supplementary, technical and technological training programs for people with disabilities; and prepared labor and learning contracts for people with disabilities who live in poverty and extreme vulnerability conditions.

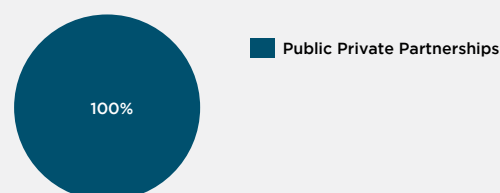

PARTNERSHIPS

Colombia created public/private partnerships and institutional networks to support vulnerable groups, particularly people with disabilities.

Total Partnerships

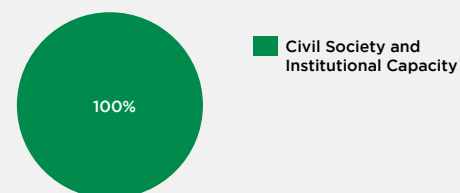

Projects or TCs by Sector

COLLABORATION

One Colombian CSO presented one of the three solutions that won the "Civil Society Program for Innovative Solutions" of the 2015 call "Civil Society and Legal Identity". Civil Society Organizations participated in the program Civil Society and Institutional Capacity, specifically in the Project Management course.

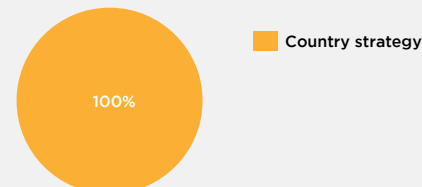

Collaborations by Sector

CONSULTATIONS

Colombia conducted face-to-face public consultations with urban Civil Society Organizations related to the 2015-2018 Country Strategy.

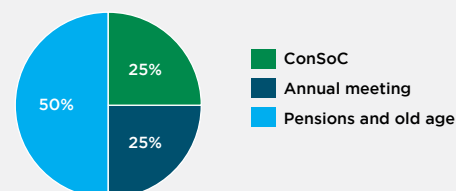

Public Consultations Involving Civil Society

DIALOGUE

Colombia held a number of dialogues with members of the ConSoC and organized meetings to prepare a thematic roundtable on "Pensions and Old Age", presenting a series of documents on the current status of old age in Colombia and its long-term projections. Several Colombian CSOs participated and presented projects during the annual 2014 and 2015 forums of the IDB Group-Civil Society 26 countries.

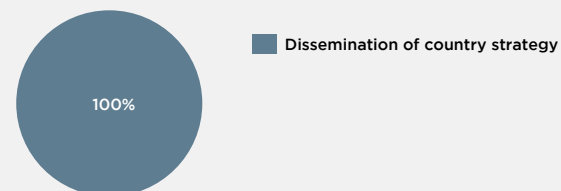

Dialogues Involving Civil Society

INFORMATION

The Country Strategy was publicized among business chambers and Civil Society representatives and the Colombian Council of Competitiveness.

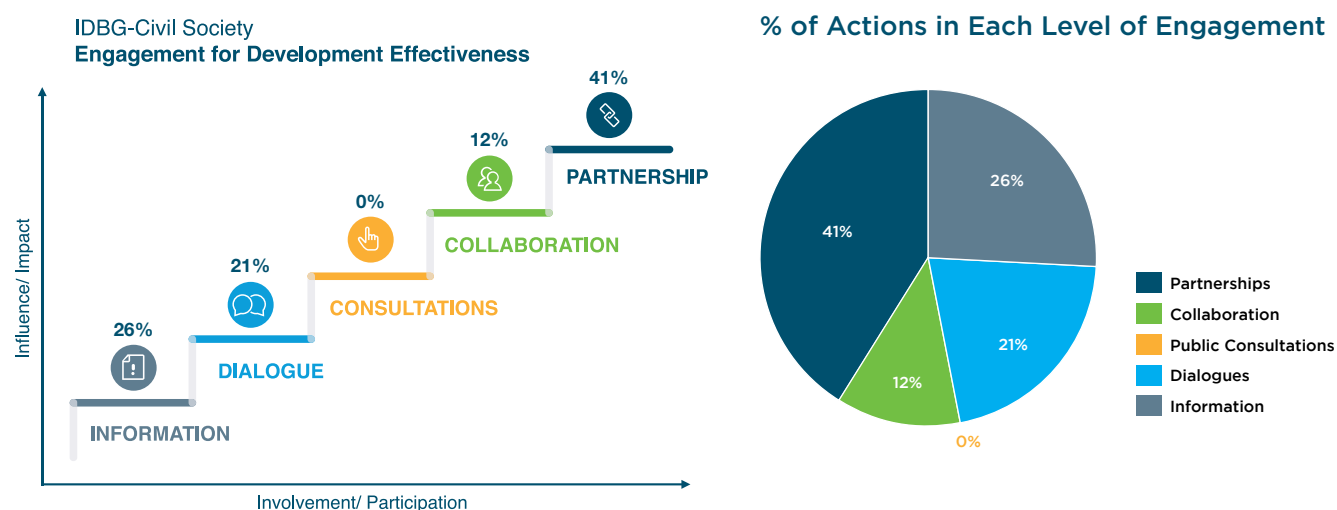

Actions of Information

8. LEVELS OF ENGAGEMENT BY REGION: CAN

1.3 Ecuador

Ecuador undertook actions with Civil Society during 2014-2015 in the different levels of engagement. Most actions consisted of partnerships (41%), followed by actions of information for Civil Society (26%), dialogues (21%), and collaborations (12%).

SUCCESS STORY

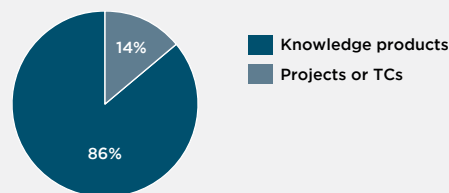

In partnership with the Coordinator of Indigenous Organizations of the Amazon Basin (COICA), a federation of Indigenous groups of Latin America, the IDB organized a pilot project aimed at strengthening COICA's capacity for developing plans related to Climate Change. Some 1,000 leaders from 84 indigenous groups from Peru, Ecuador, Brazil and Colombia were trained on how to reduce emissions resulting from deforestation and forest degradation, indigenous rights, and national and international

legal frameworks regarding climate change and biodiversity. The programs also helped to improve the participants' IT capacities and offered training on project technical, trust and administrative management. The initiative took community leaders to international meetings and conferences, helping them to present their cases to relevant policy makers and improve their links with other indigenous communities and their governments.

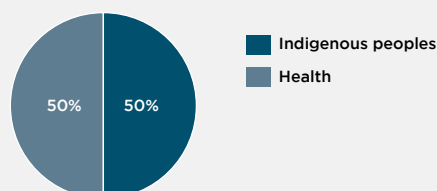

PARTNERSHIPS

Ecuador established partnerships with Civil Society in the sectors of Indigenous Peoples, Water and Sanitation, and Social Protection, which resulted in knowledge products (one video and one publication). 86% correspond to specific projects and/or Technical Cooperations and direct financing, with CSOs involved in their execution.

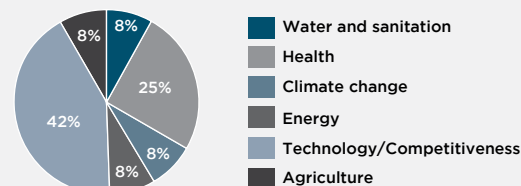

Total Partnerships

Knowledge Products by Sector

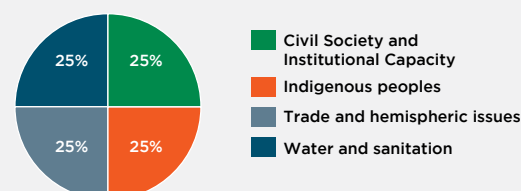

Projects or TCs by Sector

COLLABORATION

The collaboration actions conducted include face-to-face and online training sessions on Trade and hemispheric issues, as well as a face-to-face seminar referred to Indigenous Peoples. A number of CSOs also participated in the program Civil Society and Institutional Capacity and obtained scholarships and PMA qualification, completing the two-month training on "Project Management for Results PM4R / Civil Society" 2015.

Collaborations by Sector

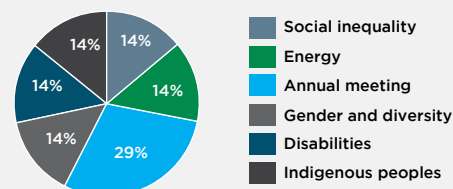

CONSULTATIONS

DIALOGUE

During this period, Ecuador conducted dialogues with Civil Society on issues like Social Inequality, Energy, Gender and Diversity, Disabilities and Indigenous Peoples. It also organized annual ConSoC meetings. Several Ecuadorian CSOs participated and presented projects during the annual 2014 and 2015 forums of the IDB Group-Civil Society 26 countries.

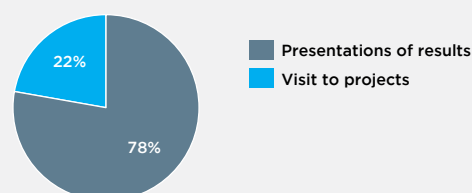

Dialogues Involving Civil Society

INFORMATION

In Ecuador, the IDB organized actions of information, of which 78% corresponded to presentation of results and/or the work conducted by the IDB in different sectors, including the ICIM, and 22% to visits to projects.

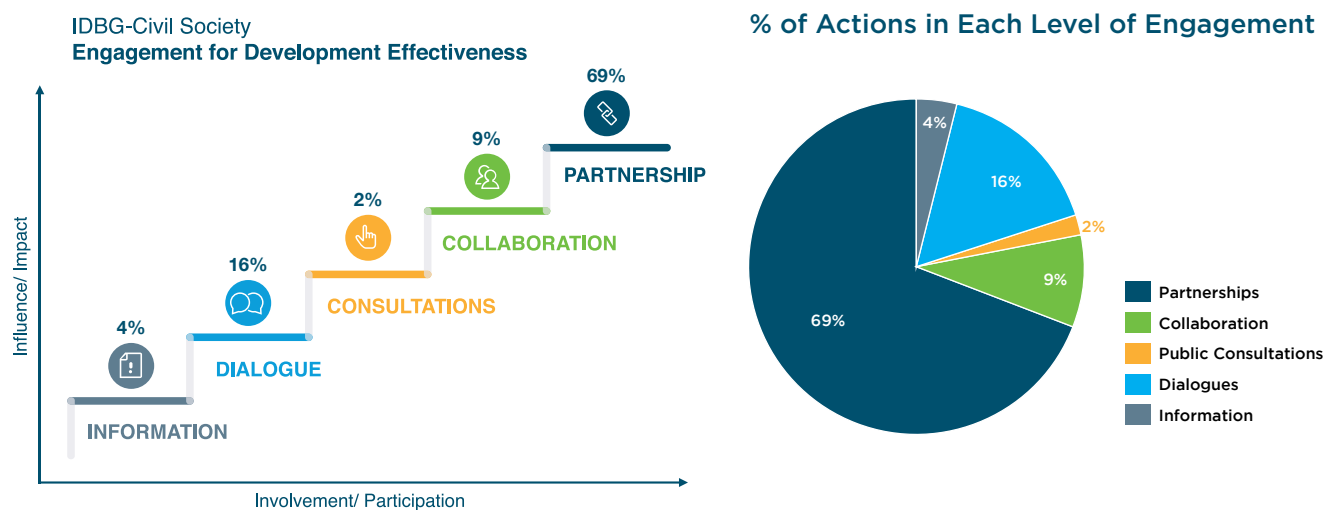

Actions of Information

8. LEVELS OF ENGAGEMENT BY REGION: CAN

1.4 Peru

Peru undertook actions with Civil Society during 2014-2015 in the different levels of engagement. The majority (69%) corresponds to partnerships through knowledge products, of which 90% are specific projects and/or direct financing and/or Technical Cooperations where civil society participates in their execution. 16% were dialogues, 9% collaborations, 4% actions of information for Civil Society and 2% public consultations.

SUCCESS STORY

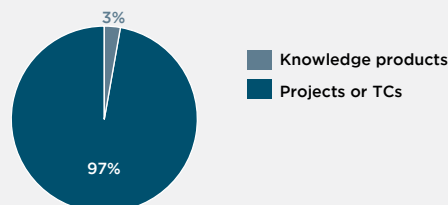

The pilot project “Access to water and sanitation for dispersed rural communities” executed by the CSO Care sought to design and implement management models for the provision of water and sanitation services associated to infrastructure and technological equipment works.

The project was supported by the IDB and promoted collaboration between the Government of Peru and Civil Society initiatives regarding water and sanitation. The results of the implementation (still in progress at the time of this review) will provide feedback for the formulation of the National Potable Water and Rural Sanitation Policy currently being prepared.

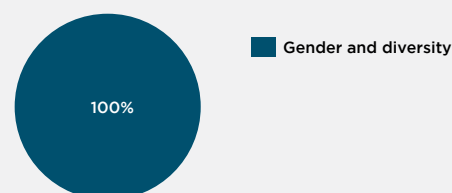

PARTNERSHIPS

Peru organized partnerships with Civil Society in sectors like Competitiveness and Innovation, Gender and Diversity, Rural Development, Environment and Health. The partnerships led to knowledge projects and specific projects and/or Technical Cooperations with direct financing from the above mentioned sectors, with CSOs involved in their execution.

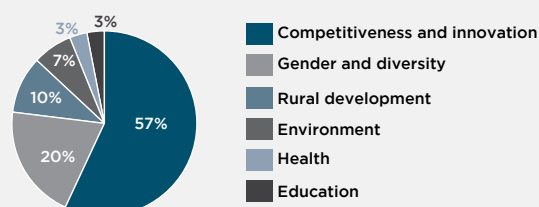

Total Partnerships

Knowledge Products by Sector

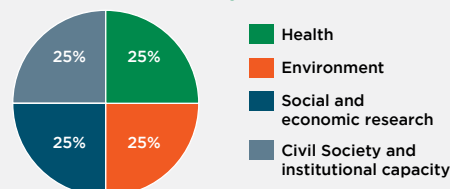

Projects or TCs by Sector

COLLABORATION

Peru entered into collaborations with Civil Society on topics related to Health and Environment, as well as social and economic research through the Economic and Social Research Consortium (CIES). A number of CSOs also participated in the program Civil Society and Institutional Capacity and obtained scholarships and PMA qualification, completing the two-month training on "Project Management for Results PM4R / Civil Society" 2015.

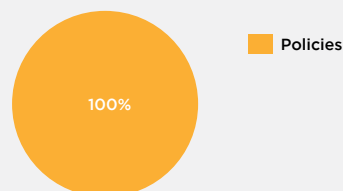

Collaborations by Sector

PUBLIC CONSULTATIONS

100% of all public consultations refer to Bank policies.

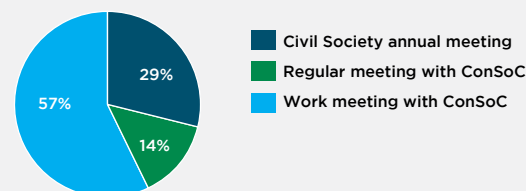

Public Consultations Involving Civil Society

DIALOGUE

57% of all dialogue actions correspond to work meetings with sub-groups within the ConSoC, 29% to annual meetings with Civil Society, and 14% to regular ConSoC meetings. Several local CSOs participated and presented projects during the annual 2014 and 2015 forums of the IDB Group-Civil Society 26 Countries.

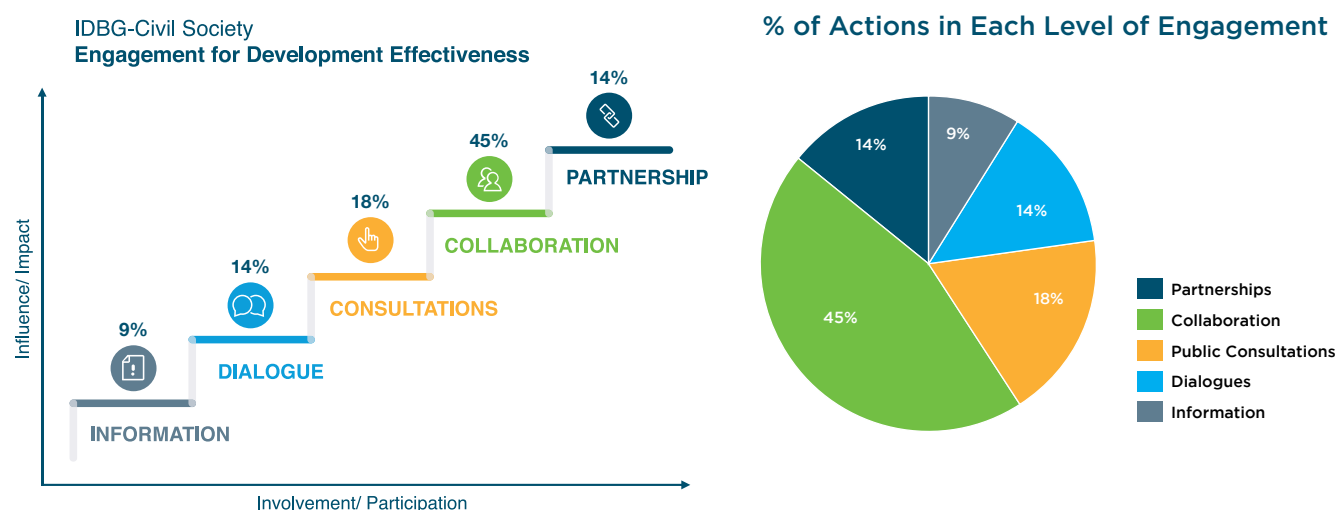

Dialogues Involving Civil Society

8. LEVELS OF ENGAGEMENT BY REGION: CAN

1.5 Venezuela

Of all the actions undertaken by Venezuela with Civil Society during 2014-2015 in the different levels of engagement, 45% consisted of collaborations with Civil Society, 18% were public consultations, 14% were dialogues, 14% were partnerships through knowledge products, and 9% were actions of information.

SUCCESS STORY

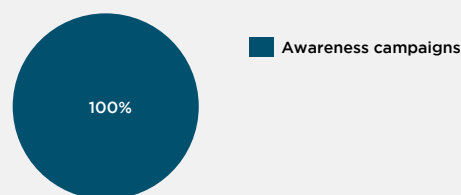

Civil Society had an outstanding participation in the Emerging and Sustainable Cities Initiative (ESCI) in the city of Cumaná through different levels of consultation. Working groups, courses and workshops were organized that dealt with issues like Social Protection, Climate Change and Disaster Risk Management, Transport, Road Infrastructure, Water, Sanitation, Energy, Security, and Urban Development

for the city's historical center. The work agenda developed during 2014 and 2015 included feedback from universities, sectoral organizations, and groups that represented the city's communities. This was integrated into the ESCI Action Plan and received support from the Mayor of the Sucre Municipality (Cumaná).

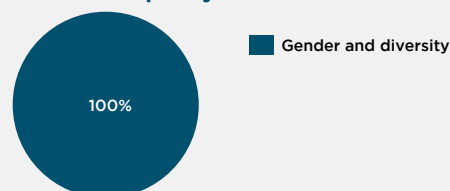

PARTNERSHIPS

Venezuela has established partnerships through awareness campaigns on Gender and Diversity.

Total Partnerships

Partnerships by Sector

COLLABORATION

Venezuela has organized seminars with ConSoC members (30%) and actions on Urban Development (40%), Transport (10%) and Competitiveness and Innovation (10%) issues. Several CSOs participated in the program Civil Society and Institutional Capacity and obtained scholarships and the project management qualification after the two-month training. Venezuelan Civil Society representatives completed the course "Project Management for Results PM4R / Civil Society" with excellence.

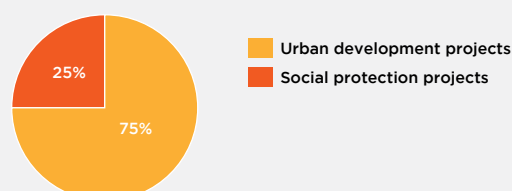

Collaborations by Sector

PUBLIC CONSULTATIONS

A number of public consultations were conducted that included the Civil Society of communities adjacent to the project area. 75% of the consultations referred to urban development projects, while the remaining 25% involved the Social Protection sector.

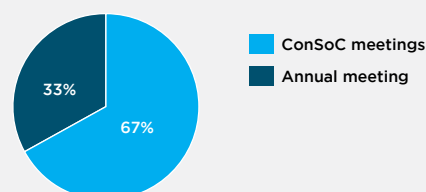

Public Consultations Involving Civil Society

DIALOGUE

Dialogues were organized with Civil Society regarding annual ConSoC meetings. Venezuela participated in the annual 2014 and 2015 forums of the IDB Group-Civil Society 26 countries, where CSOs presented projects and initiatives.

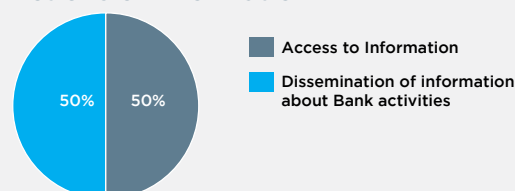

Dialogues Involving Civil Society

INFORMATION

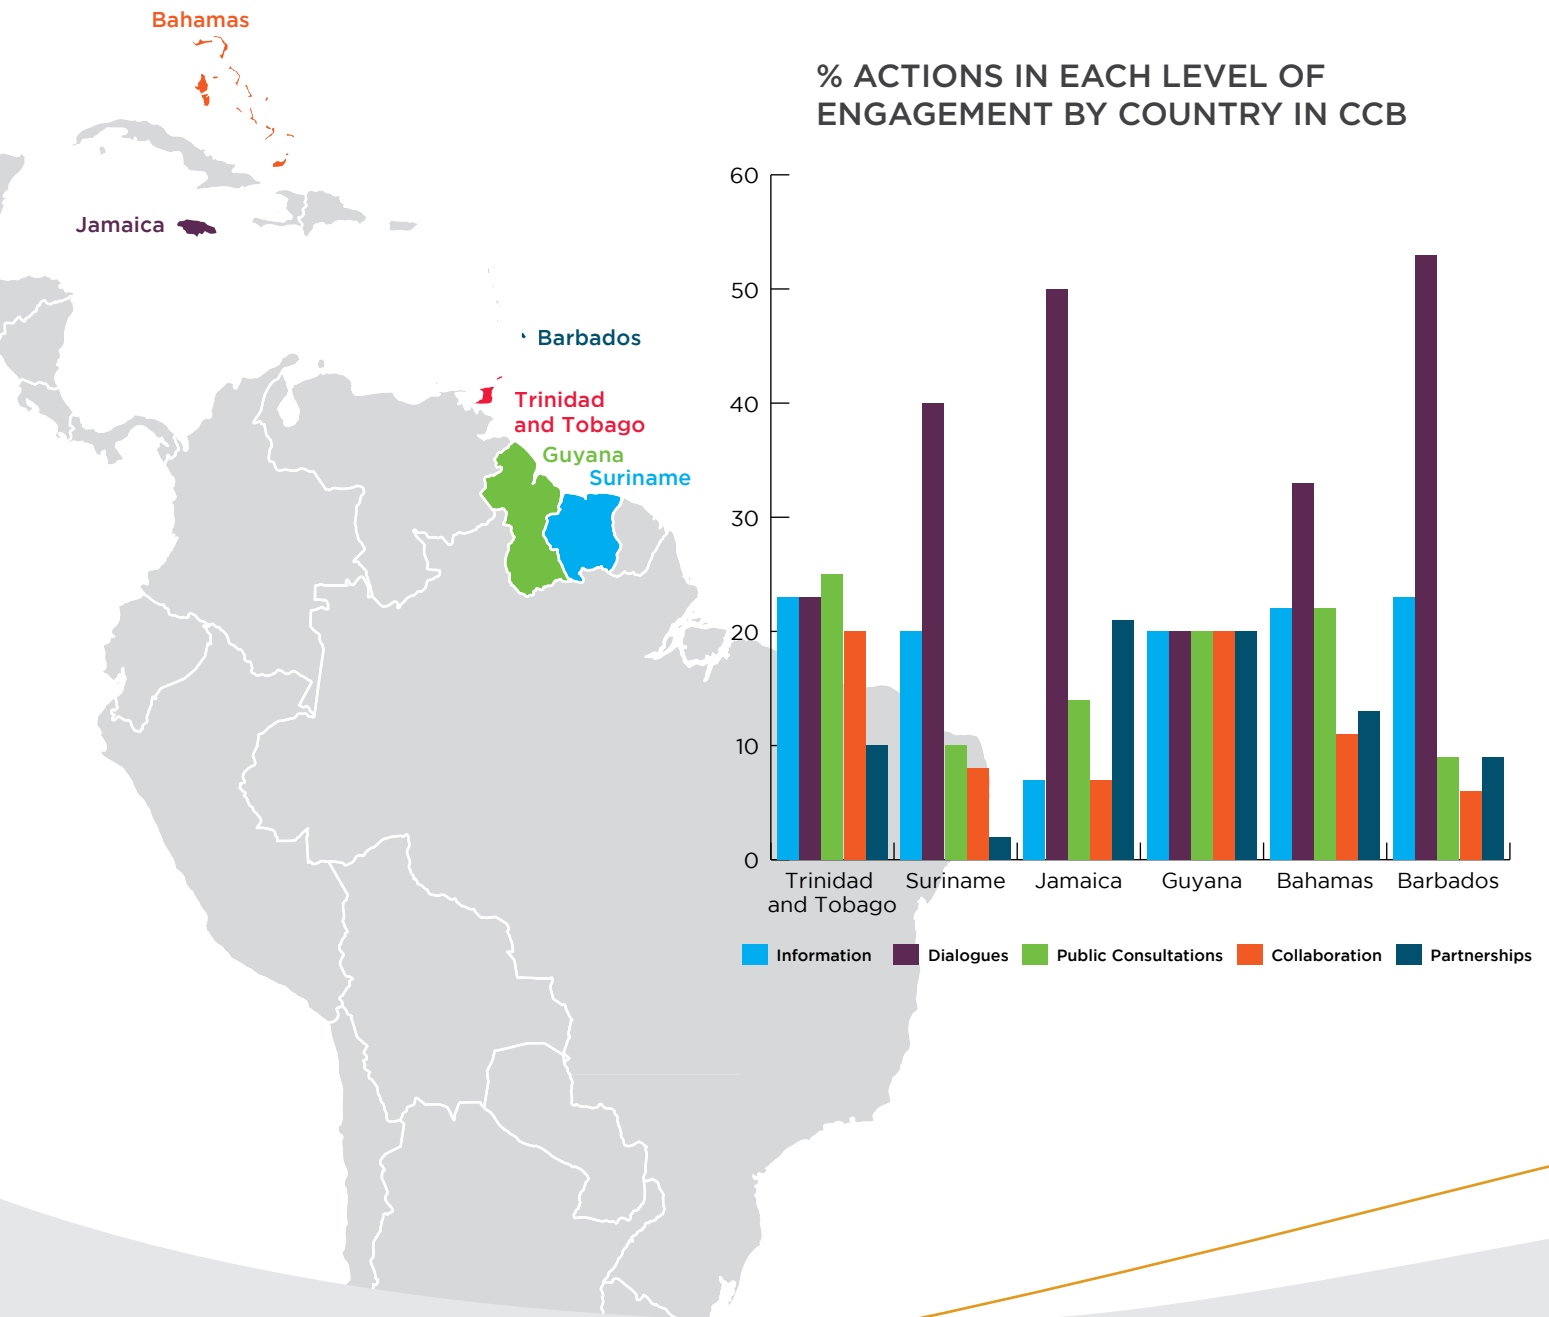

Venezuela organized events and videoconferences (VC) aimed at strengthening information access on Bank activities (including the IT Access Policy) such as information on LAC 2015 and presentation of the DEO to the CSOs members of the ConSoC.

Actions of Information

8. LEVELS OF ENGAGEMENT BY REGION

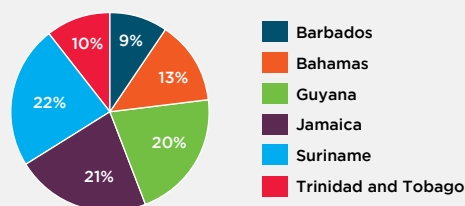

2. CCB Region

PARTNERSHIPS

Of all CCB countries, Suriname, Jamaica and Guyana have conducted 22%, 21% and 20% of partnerships respectively, followed by the Bahamas (13%) in the form of projects and/or technical cooperations and knowledge products.

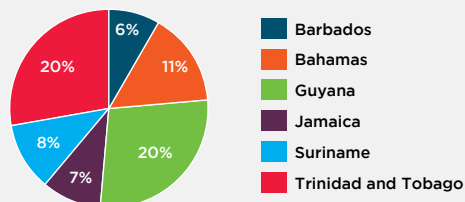

Total Partnerships with Civil Society in CCB

COLLABORATION

Trinidad and Tobago (20%) and Guyana (20%) lead the way in terms of collaborations with Civil Society (seminars, face-to-face or online training and thematic roundtables), followed by Bahamas (11%).

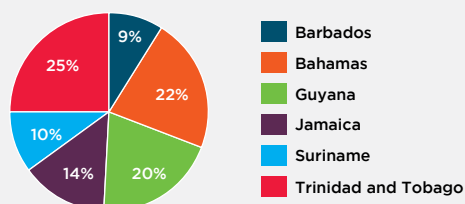

Total Collaborations with Civil Society in CCB

CONSULTATIONS

Trinidad and Tobago conducted 25% of consultations with Civil Society, followed by Bahamas (22%) and Guyana (20%), related to projects in various sectors, sectoral policies and Country Strategies.

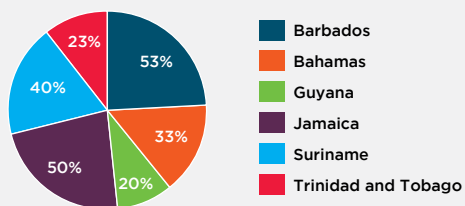

Total Consultations with Civil Society in CCB

DIALOGUE

During this period, the countries that have put the greatest emphasis on dialogues with Civil Society were Barbados and Jamaica, with 53 and 50% respectively. All countries have participated in the annual forums of the IDB Group-Civil Society 26 Countries and the IDB-Civil Society Caribbean Forum.

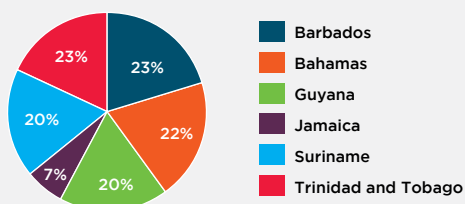

Total Dialogues with Civil Society in CCB

INFORMATION

Trinidad and Tobago and Barbados stand out for the number of actions of information for Civil Society, 23% each, followed by the Bahamas (22%).

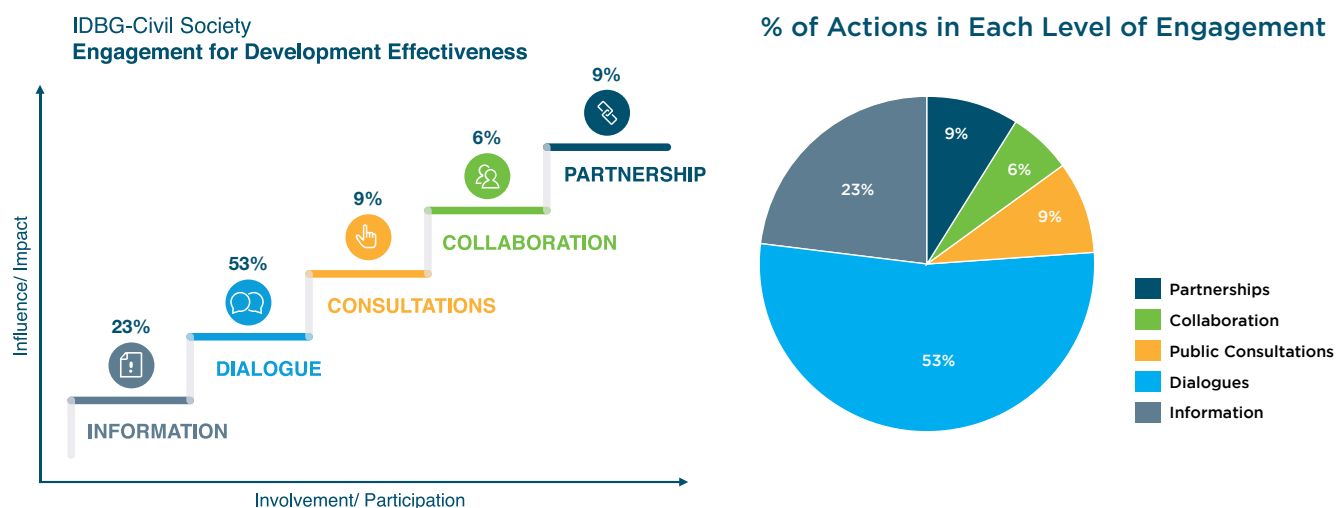

Total Actions of Information with Civil Society in CCB

8. LEVELS OF ENGAGEMENT BY REGION: CCB

2.1 Barbados

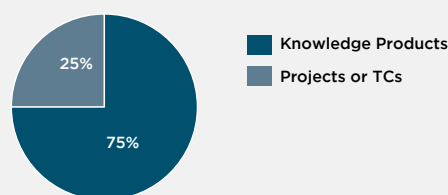

Barbados undertook actions with Civil Society during 2014-2015 in the different levels of engagement. Of these, 9% corresponded to partnerships in the form of specific projects and/or direct financing and/or Technical Cooperations where Civil Society participates in their execution, 6% were collaborations, 9% were public consultations, 53% were dialogues and 23% were actions of information.

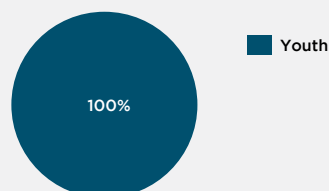

PARTNERSHIPS

Of all partnerships, 75% correspond to knowledge products as Youth studies and 25% to projects and/or TCs on strengthening Civil Society institutional capacity. Barbados CSOs participated in the program "Civil Society and Institutional Capacity" as part of the intensive course "Project Cycle Management".

Total Partnerships

Knowledge Products by Sector

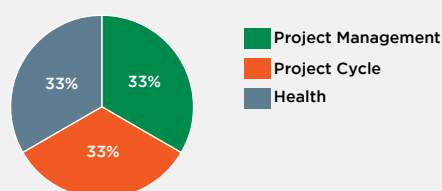

Projects and TCs by Sector

COLLABORATION

Face-to-face or online training seminars were conducted on Project Management (33%), Project Cycle (33%) and Health (33%).

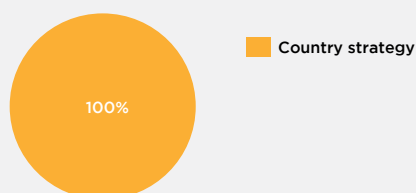

Collaborations by Sector

CONSULTATIONS

Public consultations were held in relation to the Country Strategy, including face-to-face consultations with peri-urban communities.

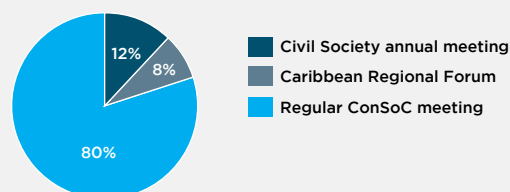

Public Consultations Involving Civil Society

DIALOGUE

ConSoC and annual meetings were held. CSOs participated in the Regional Caribbean Forum and in the 2014 and 2015 annual forums of the IDB Group / Civil Society 26 Countries, where they presented projects and initiatives.

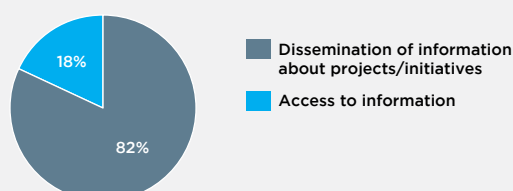

Dialogues Involving Civil Society

INFORMATION

Barbados conducted actions of information that included sessions of project financing opportunities and partnership opportunities through Bank initiatives.

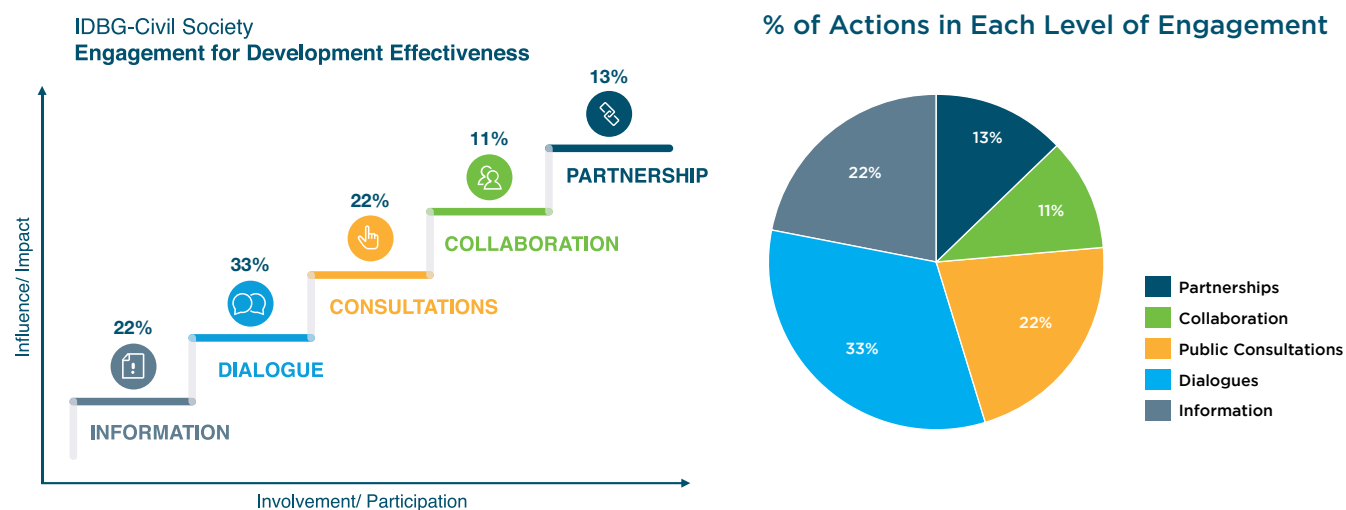

Actions of Information

8. LEVELS OF ENGAGEMENT BY REGION: CCB

2.2 Bahamas

The Bahamas undertook actions with Civil Society during 2014-2015 in the different levels of engagement. Of these, 33% consisted of dialogues with Civil Society, 22% were public consultations, 11% were collaborations, 22% were actions of information, 13% were partnerships through specific projects and/or direct financing and/or TCs where Civil Society participates in their execution.

SUCCESS STORY

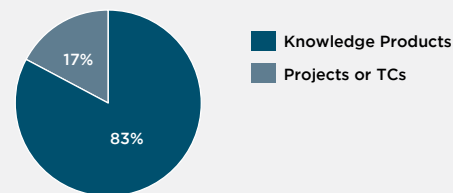

The Bahamas Reef Environmental Educational Foundation (BREEF) brings together primary and secondary teachers from across the country in a network of more than 400 educators devoted to effectively teaching about marine conservation. The objective is to inspire students to act in the defense of the ocean habitat. IDB's support enabled the creation of a "Climate Change Toolkit for Educators". On another note, the Bahamas ConSoC carried

out an energy conservation initiative with an initial focus on electricity to facilitate dialogue and to encourage citizens to conserve energy in their homes. Participants of this initiative included The Nature Conservancy, Young Marine Explorers, The Bahamas National Trust, College of The Bahamas, the Society of Engineers and the Bahamas Reef Environment Educational Foundation.

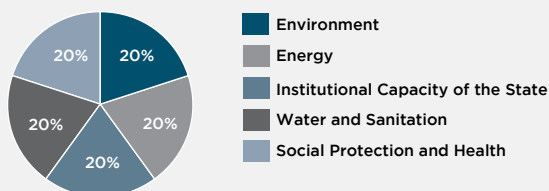

PARTNERSHIPS

83% of all partnerships refer to knowledge products on Institutional Capacity of the State (33%), Social Protection and Health (33%), Water and Sanitation (33%), while 17% correspond to projects and/or TCs on Civil Society Institutional Capacity. CSOs participated in the program “Civil Society and Institutional Capacity” as part of the intensive training course “Project Cycle Management” with CSOs from different parts of the Bahamas islands.

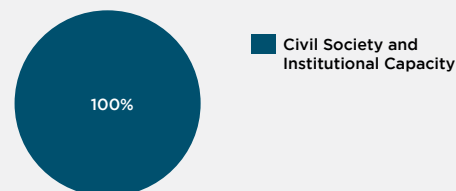

Total Partnerships

Knowledge Products by Sector

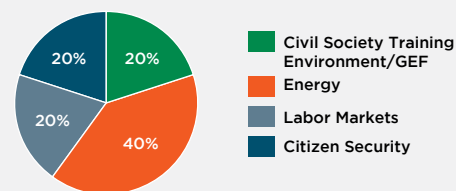

Projects and TCs by Sector

COLLABORATION

Thematic roundtables and face-to-face training sessions were organized on Energy (40%), Environment (20%), Citizen Security (20%) and Labor Markets (20%).

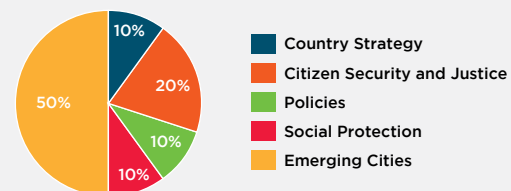

Collaborations by Sector

CONSULTATIONS

The country conducted public consultations on Country Strategy and others with communities adjacent to the operation area on topics like Citizen Security and Justice, Social Protection and Emerging Cities.

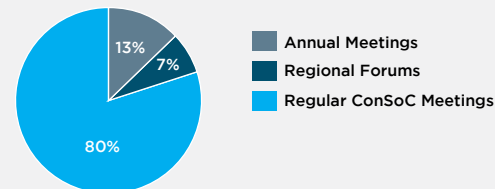

Public Consultations Involving Civil Society

DIALOGUE

The country held annual meetings, regional forums and seminars/workshops, as well as meetings with ConSoC members that involved urban Civil Society. CSOs participated and presented projects and initiatives during the annual 2014 and 2015 forums of the IDB Group / Civil Society 26 Countries and the IDB Group-Civil Society Caribbean.

Dialogues Involving Civil Society

INFORMATION

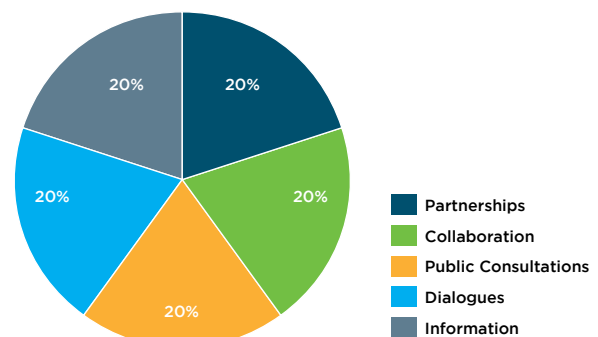

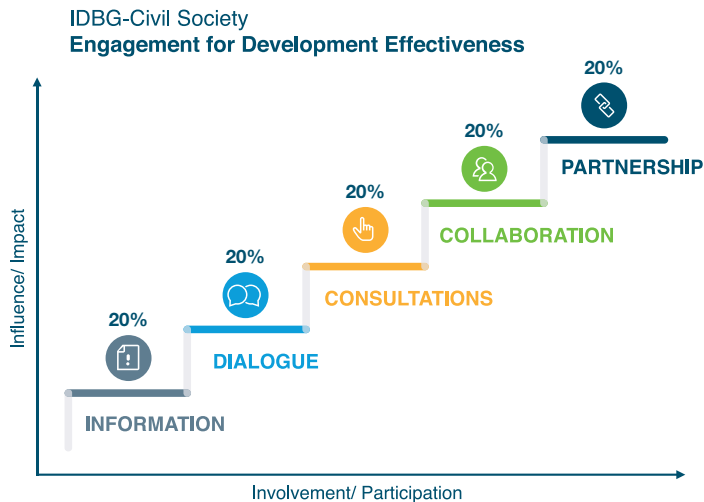

The Bahamas undertook actions of information that included dissemination on Bank projects and initiatives (50%), calls for proposals (30%), Information Access (10%), and customer satisfaction surveys (CS) (10%).

Actions of Information

2.3 Guyana

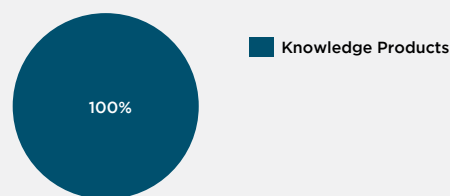

Guyana undertook actions with Civil Society during 2014-2015 in the different levels of engagement. Of these, 20% corresponded to partnerships through knowledge products and 20% to each of the other levels.

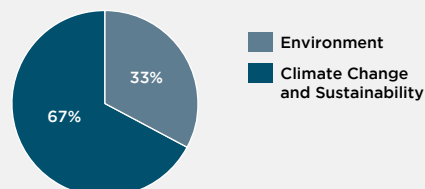

PARTNERSHIPS

100% of all partnerships are knowledge products, of which 67% refer to Climate Change and Sustainability, and 33% relate to Environmental issues.

Total Partnerships

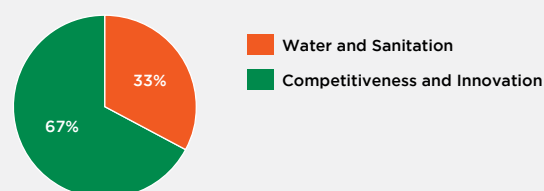

Knowledge Products by Sector

COLLABORATION

Thematic roundtables and face-to-face training sessions were conducted on topics like Water and Sanitation (33%) and Competitiveness and Innovation (67%), involving rural, peri-urban and urban Civil Society. Several Guyanese CSOs participated in the program "Civil Society for Innovative Solutions", one of which won the 2015 challenge "Civil Society and Legal Identity".

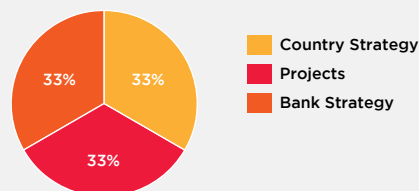

Collaborations by Sector

CONSULTATIONS

The country conducted public consultations on the Country Strategy, Bank Strategies and joint projects with communities adjacent to the project zones that included the live participation of Civil Society representatives.

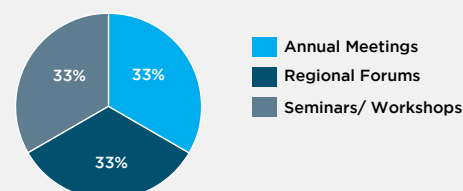

Public Consultations Involving Civil Society

DIALOGUE

The country held annual meetings, regional forums and seminars/workshops, as well as ConSoC meetings that involved urban Civil Society. Several local CSOs participated and presented projects during the annual 2014 and 2015 forums of the IDB Group-Civil Society 26 Countries and the IDB Group-Civil Society Caribbean meeting.

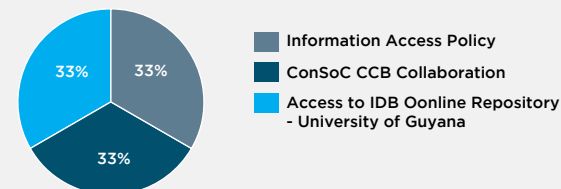

Dialogues Involving Civil Society

INFORMATION

Guyana conducted actions of information that included events and/or videoconferences in the area of Information Access to Bank Policy.

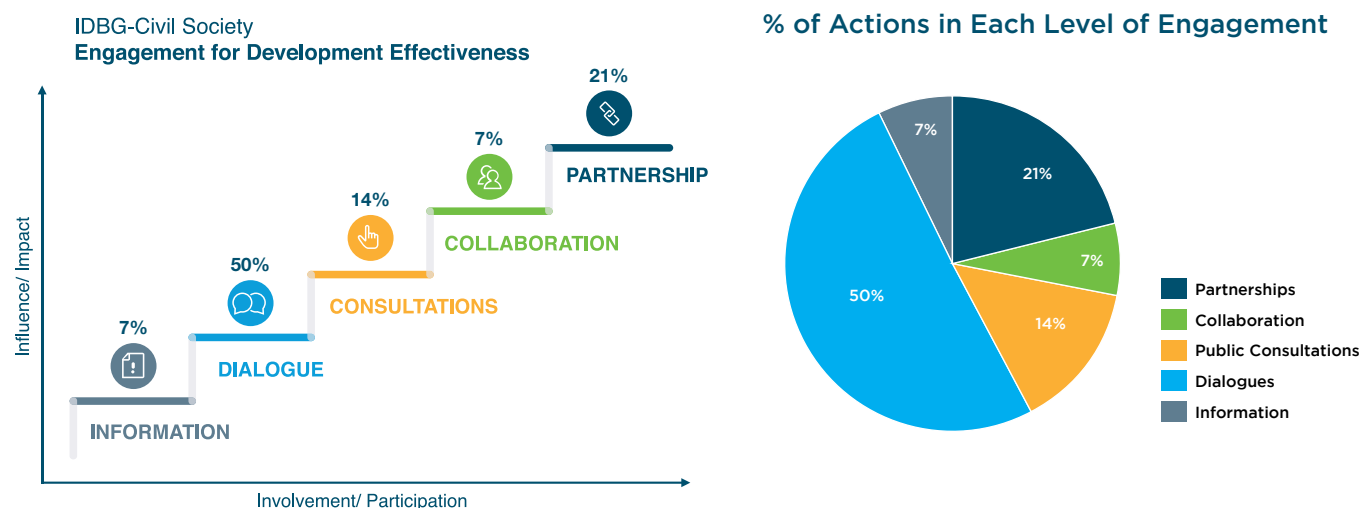

Actions of Information

Total Actions of Information with Civil Society in CSC

8. LEVELS OF ENGAGEMENT BY REGION: CSC

3.1 Argentina

Argentina undertook actions with Civil Society during 2014-2015 in the different levels of engagement. Most actions (56%) consisted of partnerships with Civil Society, of which 47% were knowledge products and 53% were specific projects and/or direct financing and/or Technical Cooperations where Civil Society participates in their execution. There were also collaborations (15%), public consultations (11%), dialogues (4%) and actions of information (15%).

SUCCESS STORY

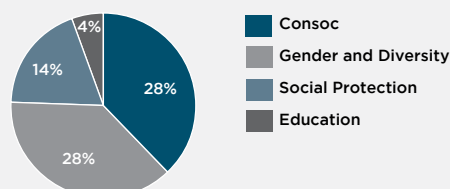

Bank specialists worked in thematic roundtables together with 27 Civil Society Organizations and members of ConSoC Argentina. The result was the publication of the report *“Los Jóvenes Sí-Sí: Experiencias y Aprendizajes de Organizaciones de la Sociedad Civil para la transición de los jóvenes entre educación y trabajo”* that helped to fill an information gap on CSO experiences and lessons learned for

youths transitioning from education to work. A thematic roundtable was held with participation from CSOs, private companies and the National Road Safety Agency with Bank specialists on Road Safety for Children. The School Roads initiative helped to place children's needs in the spotlight of public action and social interest. www.iadb.org/jovenes-si; <https://vimeo.com/125149800>

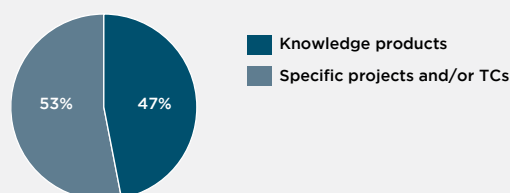

PARTNERSHIPS

Of all knowledge products, 28% correspond to products of ConSoc Argentina on Education, Transport and Rural Development issues, 28% refer to Gender and Diversity, 14% to Social Protection and 14% to Education. 37.5% of the projects refer to Social Protection, 25% to Gender and Diversity, 25% to Education and 12% to Competitiveness and Innovation.

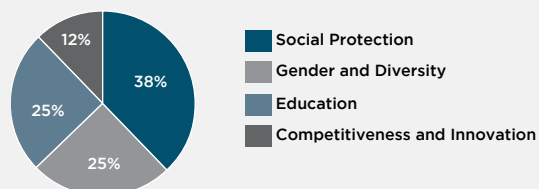

Knowledge Products by Sector

Total Partnerships

Projects and TCs by Sector

COLLABORATION

Thematic roundtables were organized in relation to Education, Transport and Environment, involving both urban and peri-urban civil society. Several CSOs participated in the program Civil Society and Institutional Capacity and obtained scholarships and the project management qualification after the two-month training. Argentinean Civil Society representatives completed the training course "Project Management for Results PM4R / Civil Society" with excellence.

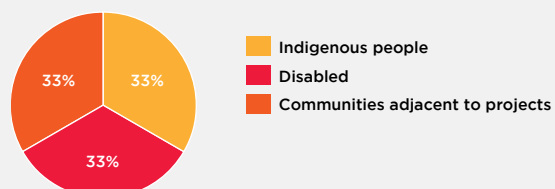

Collaborations by Sector

CONSULTATIONS

Public consultations were held with communities adjacent to the project area, including vulnerable groups (indigenous population and people with disabilities).

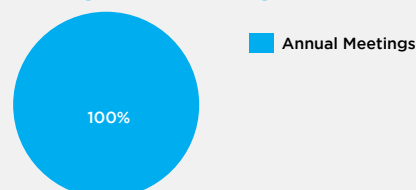

Public Consultations Involving Civil Society

DIALOGUE

One annual meeting was held that involved urban Civil Society. Several local CSOs participated and presented projects during the annual 2014 and 2015 forums of the IDB Group-Civil Society 26 Countries.

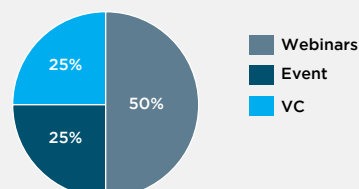

Dialogues Involving Civil Society

Collaborations by Sector

CONSULTATIONS

Public consultations were conducted with Civil Society on Sector Strategies and on Climate Change. The Bank, acting as Technical Secretary to the Plan of the Alliance for Prosperity in the Northern Triangle, supported the preparation of Guidelines for engagement with Civil Society.

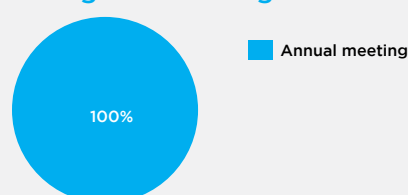

Public Consultations Involving Civil Society

DIALOGUE

100% of the dialogues conducted referred to annual meetings that involved urban Civil Society. CSO representatives participated and presented projects during the annual 2014 and 2015 forums of the IDB Group-Civil Society 26 Countries.

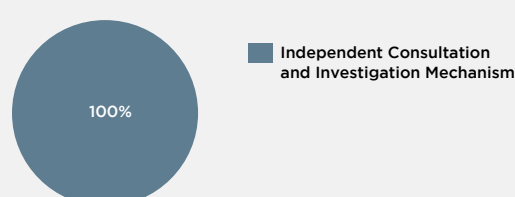

Dialogues Involving Civil Society

INFORMATION

Guatemala conducted actions of information on the Independent Consultation and Investigation Mechanism. It also participated in videoconferences on the Bank's Information Access Policy.

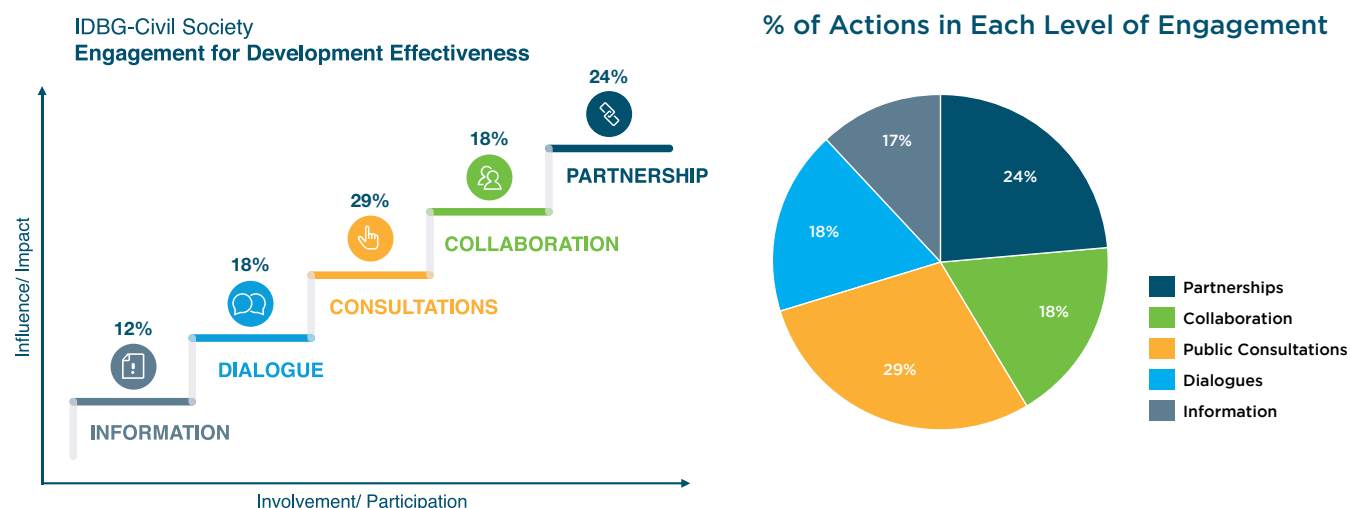

Actions of Information

8. LEVELS OF ENGAGEMENT BY REGION: CID

4.5 Honduras

Honduras undertook actions with Civil Society during 2014-2015 in the different levels of engagement. Of these, 29% consisted of public consultations with Civil Society, 24% were partnerships, 18% were collaborations, 18% were dialogues, and 12% were actions of information.

SUCCESS STORY

The Department of Gracias a Dios is the second largest in Honduras and is located at the southeast corner of the country, along the border with the Republic of Nicaragua. The region features the country's highest levels of poverty and vulnerability, with 60% of the population living in extreme poverty, relying on activities like artisanal fishing and agriculture in an economic scheme where most production is consumed, with very little surplus for sale.

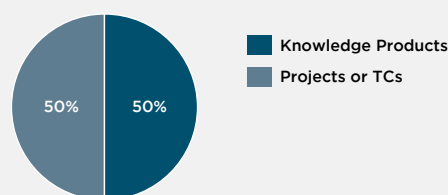

The existence of multi-cultural communities (Garífunas, Misquito and mestizo) provided the framework for the initiative "Multiculturalism in

Honduran Mosquitia, a school for development" executed by the Menonite Action Commission (CASM). With support from the IDB, the initiative promoted a comprehensive framework for rural, culturally appropriate socioeconomic development that combined elements like: (i) development of human capital, (ii) promotion of associative capacity for food security and rural businesses (production, processing and trading), (iii) sustainable agricultural and natural resource management, (iv) access to financial services, and (v) active participation of the population, especially rural women in the structure of local governments and civil society organizations.

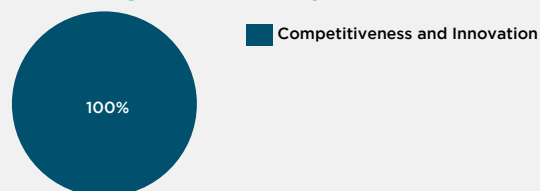

PARTNERSHIPS

50% of the knowledge products correspond to sensitization campaigns, of which 100% refer to Competitiveness and Innovation, and 50% correspond to specific projects and/or direct financing and/or Technical Cooperations where Civil Society participates in their execution.

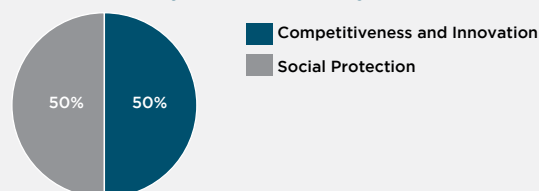

Total Partnerships

Knowledge Products by Sector

Total de Projects or TCs by Sector

COLLABORATION

Thematic roundtables involving urban Civil Society were organized on topics like Social Protection and Municipal and Fiscal Management. Civil Society Organizations received scholarships and passed the tests of the program Civil Society and Institutional Capacity during the two-month course "Project Management for Results PM4R / Civil Society" 2015.

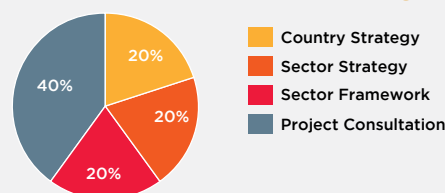

Collaborations by Sector

CONSULTATIONS

Public consultations were held with communities adjacent to the project zone, as well as public consultations on Country Strategy, Sector Strategies, and Sector Frameworks for Competitiveness and Innovation. The Bank, acting as Technical Secretary to the Plan of the Alliance for Prosperity in the Northern Triangle, supported the preparation of Guidelines for engagement with Civil Society.

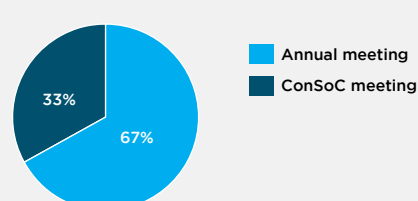

Public Consultations Involving Civil Society

DIALOGUE

Dialogues included annual meetings (67%) and meetings with ConSoC (33%). CSOs participated and presented their projects and initiatives during the 2014-2015 meetings and Honduras hosted the IDB Group-Civil Society Forum for the 26 countries during 2015.

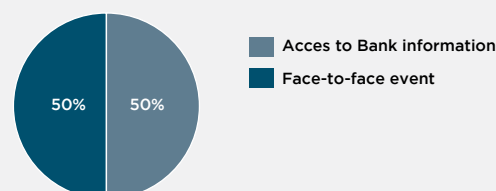

Dialogues Involving Civil Society

INFORMATION

Of all the actions of information undertaken by Honduras, 50% corresponded to Bank Information Access topics and 50% consisted of face-to-face events on a variety of issues.
