ANNUAL OVERVIEW 2019

AMBITIOUS FRAMEWORK

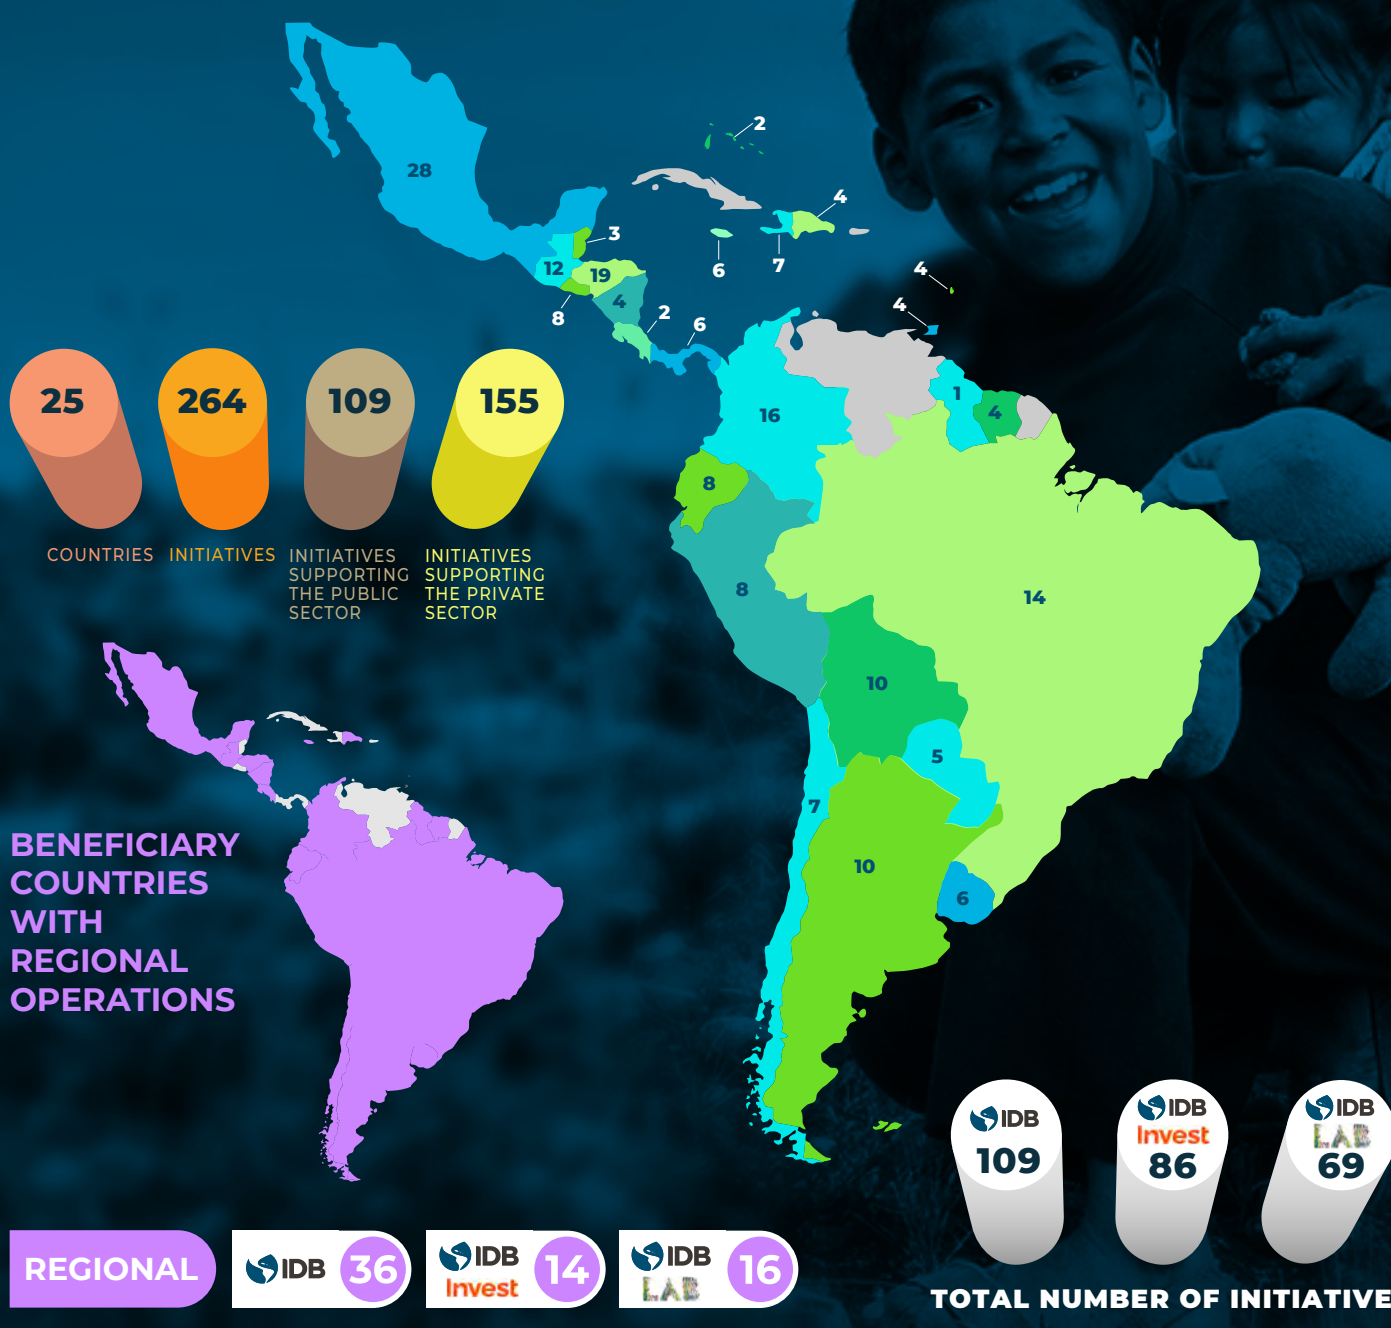

**NDC INVEST Platform** is consolidating its work and has become the largest NDC-related platform among all MDBs.

## ANNUAL OVERVIEW 2019

### NDC INVEST INITIATIVES

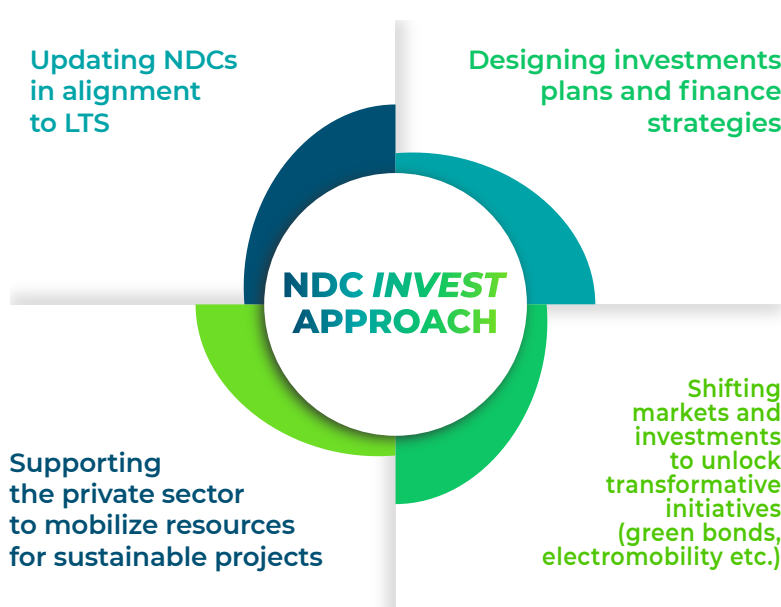

COUNTRY	IDB	IDB Invest	IDB LAB	COUNTRY	IDB	IDB Invest	IDB LAB
Argentina	2	5	3	Honduras	8	3	8
Barbados	2	1	1	Jamaica	2	1	3
Belize	1	1	1	Mexico	9	13	6
Bolivia	7	-	3	Nicaragua	-	1	3
Brazil	7	4	3	Panama	1	4	1
Chile	2	3	2	Paraguay	1	2	2
Colombia	11	3	2	Peru	5	3	-
Costa Rica	-	1	1	Suriname	2	-	2
Dominican Republic	-	2	1	Ecuador	-	5	3
El Salvador	1	6	1	Bahamas	-	2	-
Guatemala	7	4	1	Trinidad y Tobago	-	1	3
Guyana	1	-	-	Uruguay	2	3	1
Haiti	1	4	2				

\* Most of the countries on the list are also supported by NDC INVEST through regional operations. See map of beneficiary countries with regional operations.

## AMBITIOUS FRAMEWORK

NDC INVEST has a bold framework to lead the way to raising ambition by:

In the region, IDB Group has positioned itself as a key LAC ally to support the climate change agenda. Some efforts that helped to shape the work of the platform are:

### Financing the Design and Implementation of NDCs and LTS in LAC countries

Efforts to advance the design of new NDCs in alignment with LTS are a key strategic pillar of NDC INVEST. Relevant initiatives that have significant results are:

**Updating Suriname's NDC:** The main objective was to raise the ambition of the NDC through the alignment to national planning instruments, inclusion of new sectors, concrete measures, inclusion of a list of projects for implementability, and strong engagement and participation from sectoral stakeholders.

**SURINAME**

Supporting the development of an investment plan and the Decarbonization Plan.

**COSTA RICA**

**Chile's Financial Strategy on Climate Change:** The objective of this work was to support the Ministry of Hacienda of Chile to identify the actions that can lead to support the implementation of the country's commitments under the Paris Agreement.

**CHILE**

### Deep Decarbonization Pathways in LAC (DDP LAC)

Through the DDP LAC project, the IDB Group has provided technical expertise and knowledge to strengthen local capacities in national universities and think tanks to inform public policy and national debates on net-zero emission objectives. One of the project objectives is to formalize a technical-policy platform by:

**Ensuring** institutional ownership.

**INSTITUTIONAL**

**Building** capacities at the national level to enable climate-related technical skills.

**TECHNICAL**

**Ensuring** robust policy decision making based on decarbonization studies and other technical analysis.

**Robust cost-benefits analysis** of the Costa Rica Decarbonization Plan.

**DECISION MAKING**

Further information of the DDP LAC initiative can be found in the report "Getting to Net-Zero Emissions: Lessons from Latin America and the Caribbean. Link: <https://publications.iadb.org/en/getting-net-zero-emissions-lessons-latin-america-and-caribbean>
