

# NDC INVEST

---

Act for the planet. Act for change.

At the IDB Group we  
are committed to the  
sustainability of our region  
and the work we do.

The Paris Agreement, the UN's sustainable development goals and the delivery of iNDCs **marked a turning point towards shouldering climate responsibility and improving human welfare.**

*The decisions that emerge over the next 5 years*

**on infrastructure choices  
will determine the ability to  
remain well below 2°C while  
also delivering on the UN'S  
Sustainable Development  
Goals (SDGs).**

We know that the transition to a

**low-carbon**  
**climate-resilient**  
**economy**

entails difficult challenges, but we also know that effective planning and implementation will enable opportunities for sustainable development, improving lives for all.

**The time to act is now.**

That's why we have created:

# NDC INVEST

One-stop shop for countries to access resources for transforming their national commitments into achievable investment plans. It is comprised of four main elements:

### **NDC PROGRAMMER**

Bringing our vast experience and network, we help public and private sector stakeholders to develop investment plans and programs that reflect today's and tomorrow's climate needs and circumstances.

### **NDC MARKET BOOSTER**

We will use additional non reimbursable and reimbursable grants for innovative business models, financial instruments and other market development services.

### **NDC PIPELINE ACCELERATOR**

We support priority studies and additional activities to ensure technical and financial feasibility for bankable and sustainable projects.

### **NDC FINANCE MOBILIZER**

We will mobilize funding from internal and external sources to help countries enhance credit and reduce risks in the priority investments needed to meet their NDC commitments.

By taking action now,  
Latin America and the  
Caribbean in the year  
2050 will be a region with:

**Secure sustainable  
food productivity**

**Unrivalled biodiversity  
and highly valued  
natural capital**

**Economies,  
infrastructure and  
communities that are  
resilient to climate  
impacts and natural  
disasters**

**Sustainable cities  
designed for citizens**

We need to work together towards a sustainable development paradigm.

# Act for the planet, act for change.
